Basically what you're going to do is keep the original bill but create 2 secondary or similar bills. The first one will contain all of those items that were passed and the second will contain all of those items that were held. You can mark on the original bill that the question was divided and then on the two secondary or amended bills you can show one as the divided items that were passed and one is the divided items that were held. Essentially this one bill has become two bills except that we're not going to change the bill number we just need a way to document it.
