2 **GENERAL ORDINANCE NO. 4-12**

3
4 **AN ORDINANCE AMENDING CHAPTER 52:**
5 **WATER AND WATERCOURSES**
6 **CITY OF FORT WAYNE, CODE OF ORDINANCES**

7 **WHEREAS**, the Common Council of the City of Fort Wayne, Indiana last approved
8 a water rate adjustment in October 2005, which was approved by the Indiana Utility
9 Regulatory Commission following a rate analysis study and became effective as of
10 September 1, 2006; and

11 **WHEREAS**, the Fort Wayne Water Utility has developed a Capital Improvements
12 Plan (CIP) that will allow the Water Utility to continue to provide its customers with safe,
13 reliable and affordable drinking water through sustainable levels of capital spending on
14 'treatment facilities' parts and equipment, field maintenance equipment, water main
15 replacement and other structures and facilities positioned throughout the service territory;
16 and

17 **WHEREAS**, Crowe Horwath LLC was hired by Fort Wayne City Utilities to analyze
18 the Water Utility's pro forma revenues, proposed capital improvements plan, and other
19 projected cash flows in order to arrive at water rates that will generate sufficient funds to
20 meet the fiscal needs of the Water Utility including:

- 21 (A) Payment of all of the legal and other necessary expenses incident to the
22 operation of the utility;
- 23 (B) Provision of a sinking fund, a debt service reserve, adequate money for
24 working capital and making extensions and replacements to the extent not
25 provided for through depreciation;
- 26 (C) Provision of money for the payment of any taxes that may be assessed
27 against the utility; and
- 28 (D) Meeting the financial obligations of the Utility's CIP.

29 **WHEREAS**, Crowe Horwath LLP has concluded that the existing rates and
30 charges for the use of and services rendered by the Fort Wayne Water Utility do not
produce sufficient revenue to satisfy the requirements of I.C. 8-1.5-3-8, including but not

1 limited to those costs related to the Utility's CIP and therefore recommends that the
2 existing rates and charges should be increased in three phases accomplished 12 months
3 apart in amounts described below.

4 **WHEREAS**, the Board of Public Works of the City of Fort Wayne, Indiana
5 recommends that the Common Council act in accordance with I.C. 8-1.5-3-8 to find and
6 elect that the rates and charges for water service to be paid by users of the system should
7 be sufficient to carry out the obligations of the Water Utility as outlined above, to provide a
8 fair and reasonable return on the Utility plant of the City and to compensate the City for
9 taxes that would be due to the City on the Utility property were it privately owned;

10 **NOW THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE**
11 **CITY OF FORT WAYNE, INDIANA:**

12 **SECTION 1.** That the Common Council of the City of Fort Wayne, Indiana now

Interoffice Memo

Date: **December 6, 2012**

To: Common Council Members

From: **Len Poehler**, Deputy Director Business Services, Fort Wayne City Utilities

RE: **ORDINANCE REPEALING AND REPLACING ORDINANCE G-04-12**

The Common Council approved new water rates, Ordinance G-04-12 on February 21, 2012, subject to Indiana Utility Regulatory Commission (IURC) approval.

The IURC revised and approved new water rates as per attached on October 17, 2012. Phase I rates will become effective on January 1, 2013 while Phase II and Phase III rates will become effective January 1, 2014 and 2015, respectively, except as modified by the results of an agreed to cost of service study targeting the January 1, 2014 and 2015 rate adjustments.

The impact of the changes caused by the IURC process will reduce the typical monthly in-city residential bill as approved originally on February 21, 2012 from \$22.56 per month to \$22.04 per month or 2.3%.
