Re: Pawn Shop and Second Hand Store Ordinance Changes

Summary

In redrafting this ordinance, we wanted to address some areas that have arisen over the last several years. Since taking over the Pawn Detail for the FWPD, I have used the ordinance and LeadsOnline to recover property with an estimated value in excess of \$1 Million Dollars. During that time, I have found some areas of the ordinance that, after reviewing them with my immediate command, needed updating.

Primarily, we wanted to address two (2) issues:

- 1) Preventing items that should be serialized that have those numbers removed being taken into the shops. It is a misdemeanor to alter serial numbers, and this is also to prevent the shops from violating state law.
- 2) Preventing intoxicated persons (alcohol/narcotics) from disposing of property. All too often, perpetrators of theft/burglary are under the influence of some type of mind altering substance, and use the pawn shops to dispose of their ill-gotten gains quickly.

Further, we saw a need to bifurcate the pawn shops from the second hand stores. Pawn shops are a unique entity, and are heavily regulated through the state (IC 28-7-5). Second hand stores are not. We are finding that several second hand stores have been taking in what is later determined to be stolen items, and because of a loophole within the ordinance, were not reporting what they were taking in.

With the growth of "Thrift" type stores, that portion of the ordinance needed to be strengthened and separate from pawn shops. We needed to put specific language within that part of the ordinance to address that particular type of business and their reporting. We weren't concerning ourselves with those businesses buying things at estate sales or abandoned storage units, which is primarily how these types of businesses obtain their goods. This is only to address those purchases that are "off the street."

We also saw a need to update the language within the ordinance, such as updating the penalty section to give the courts the final decision in the penalty amount.

Working with the City Attorney's Office, we reviewed similar ordinances from several other communities within the State of Indiana. Some were much more restrictive; others were much more lenient. We feel that this update is a "happy medium" that will be easily enforceable while at the same time not be a burden upon the affected businesses.
