3 **AN ORDINANCE** amending Chapter 95 in the Fort Wayne Municipal Code of Ordinances:
4 “Health, Safety and Sanitation”

5 to include additional regulations to the Regulations of Smoking
6

7 **WHEREAS**, an estimated 8.1 million people uses electronic cigarettes and similar
8 products in the United States, including 3.6 million youths in 2018; and

9 **WHEREAS**, from 2012 to 2018, vaping usage increased by 300% for Indiana youth; and

10 **WHEREAS**, in 2019 more than 5 million middle and high school students reported using
11 e-cigarettes in the last 30 days, and nearly 1 million were using them daily; and

12 **WHEREAS**, the constituents of secondhand aerosol electronic smoking devices (ESDs)
13 do not just emit a harmless water vapor, but instead emit a secondhand aerosol that contains
14 nicotine, ultrafine particles and toxins which are known to cause cancer; and

15 **WHEREAS**, ESD aerosol is made up of fine and ultrafine particles, and the
16 concentration of such particles is higher than conventional tobacco cigarette smoke, and may
17 exacerbate respiratory ailments like asthma or constrict arteries, which could trigger a heart
18 attack; and

19 **WHEREAS**, at least ten (10) chemicals identified in ESD aerosols, both mainstream and
20 secondhand, are considered to be carcinogens and reproductive toxins including Acetaldehyde,
21 Benzene, Cadmium, Formaldehyde, Isoprene, Lead, Nickel, Nicotine, N-Nitrosornicotine, and
22 Toluene; and

23 **WHEREAS**, ESDs contain and emit propylene glycol and short-term exposure can lead
24 to eye, throat, and airway irritation, while long-term exposure can lead to the development of
25 asthma in children; and

26 **WHEREAS**, ESDs contain metals including chromium, nickel, and tin nanoparticles;
27 and

28 **WHEREAS**, ESDs are not a safe alternative to tobacco smoking, there are simply different
29 dangers; and

1 **WHEREAS**, as the known first- and second-hand effects of ESDs become clearer, more
2 communities are including them any smoking prohibitions, including 990 municipalities and 20
3 states, in order to ensure that unplanned secondary effects do not impact residents.
