DIGEST SHEET

TITLE OF ORDINANCE. An Ordinance of the Common Council of the City of Fort Wayne, Indiana, Establishing the Designated Outdoor Refreshment Area.

DEPARTMENT REQUESTING RESOLUTION. Community Development

SYNOPSIS OF ORDINANCE. In accordance with I.C. §7.1-3-31, this ordinance authorizes the Fort Wayne Common Council to establish Designated Outdoor Refreshment Areas ("DORAs"), which are defined outdoor spaces where patrons can responsibly enjoy alcoholic beverages. This ordinance contains the general legislative framework that will apply to any DORA created within the City. A separate ordinance must be adopted in order to establish an actual DORA.

The ordinance underscores the importance of compliance with state and local laws and regulations, extending to matters such as littering, nuisances, and alcoholic beverage consumption. Furthermore, it grants the Council the authority to dissolve a DORA at any time.

Other provisions encompass topics such as the designation process, including the submission of a map delineating boundaries, locations of designated permittees and vendors, compliance with zoning codes, signage requirements, and permissible dates and hours of operation. The ordinance outlines the application process, review by the Department of Community Development, and the subsequent approval by the Indiana Alcohol and Tobacco Commission (ATC). Additionally, the ordinance specifies the permissible content of open containers and the City's authority to regulate public spaces within the DORA.

EFFECT OF PASSAGE. The primary objective of the program is to foster growth, investment, walkability, vendor flexibility, recreation, and business development within Fort Wayne. Similar programs have existed in the Midwest for several years, and many programs have been established in Indiana since the State created the program earlier this year.

EFFECT OF NON-PASSAGE. Failure to pass this ordinance could result in missed opportunities for the city, hindering its ability to capitalize on the economic and social benefits associated with DORAs. The city risks falling behind other municipalities that have embraced similar initiatives, potentially losing its competitive edge in attracting investment, fostering growth, and enhancing the overall quality of life for residents.

MONEY INVOLVED (DIRECT COSTS, EXPENDITURES, SAVINGS). This ordinance enables the Common Council to establish DORAs. There is no cost associated with adopting this ordinance.

ASSIGNED TO COMMITTEE (PRESIDENT). _____

Subject: Approving an Ordinance Establishing Designated Outdoor Refreshment Areas

Date: December 7, 2023

Earlier this year, the Indiana Legislature passed I.C. §7.1-3-31, which allows a municipality's legislative body to establish Designated Outdoor Refreshment Areas (DORAs), which are defined outdoor spaces where patrons can responsibly enjoy alcoholic beverages. They have proven successful in neighboring states for several years, and many Indiana communities have already taken advantage of this legislation as a way to create vibrant settings that promote economic development and enhance the overall downtown experience.

In partnership with other City departments, the DID, and local business owners, Community Development has researched best practices from other cities, integrated relevant State laws, and devised a comprehensive plan for the local administration of the DORA program, which includes the following key elements:

- A community can designate up to 7 different DORAs.
- Establishments with existing liquor licenses can apply for a Designated Permittee permit, which will allow them and their customers to participate in the DORA.
- Locations that host frequent public events, such as the Plaza at the Downtown Library, can also participate by allowing vendors to obtain permits and customers to participate.
- The type and quantity of alcoholic beverages patrons can have while walking around the DORA are limited by State law.
- The DID will act as "boots on the ground" in administration of the Downtown DORA, including maintaining signage, sanitation, and communication with businesses and other entities.
- Community Development will administer and manage the local and State permitting associated with the DORA.

Community Development hereby requests that the Common Council approve the attached ordinance enabling the creation of DORAs in Fort Wayne, as well as a companion ordinance establishing the city's first DORA in a portion of downtown.

Thank you for your consideration. Please do not hesitate to reach out if you have any questions.
