How does the property for which you are requesting designation meet the above definition of an ERA?

See attached Exhibit B

Exhibit B

(BDW, LLC)

How does the property for which you are requesting a designation meet the above definition of an ERA?

Based upon data provided by IBIS World, the private-practice optometrist owner will continue to feel growing pressure from 1) managed care (i.e. health plans that manage healthcare costs & usage), 2) sophisticated corporate competition and 3) the sale of eyewear on the internet.

Managed Care

The ever changing insurance landscape continues to be a challenge for optometrists. Employer healthcare plans are beginning to include vision care (typically a yearly eye exam) with supplemental vision care plans providing some coverage, including a discount on glasses. To earn business from members of managed-care and vision plans, optometrists have little choice but to accept discounted prices. Medicare reimbursement has barely kept up with inflation and the industry has been dealing with threats of large cuts to reimbursements.

External Competition

Many optometrists sell eyeglasses and contact lenses in their practices in addition to performing routine eye exams, which places the industry in direct competition with the Eye Glasses and Contact Lens Stores industry. External competition is expected to increase during 2012, representing a potential threat to the private-practice optometrist.

Industry Forecast

As an industry, optometry is forecast to grow over the next five years through 2018 based upon an aging population. To meet this demand, the new addition will allow the practice to expand its services through the addition of an optician which will earn \$28,000 annually.

Fort Wayne census statistics

Total Population, 2010 355,329

Projected Population, 2020 379,731

Total Households, 2010 137,851

Median Age, 2010 35.3

Population Breakdown by Age, 2010

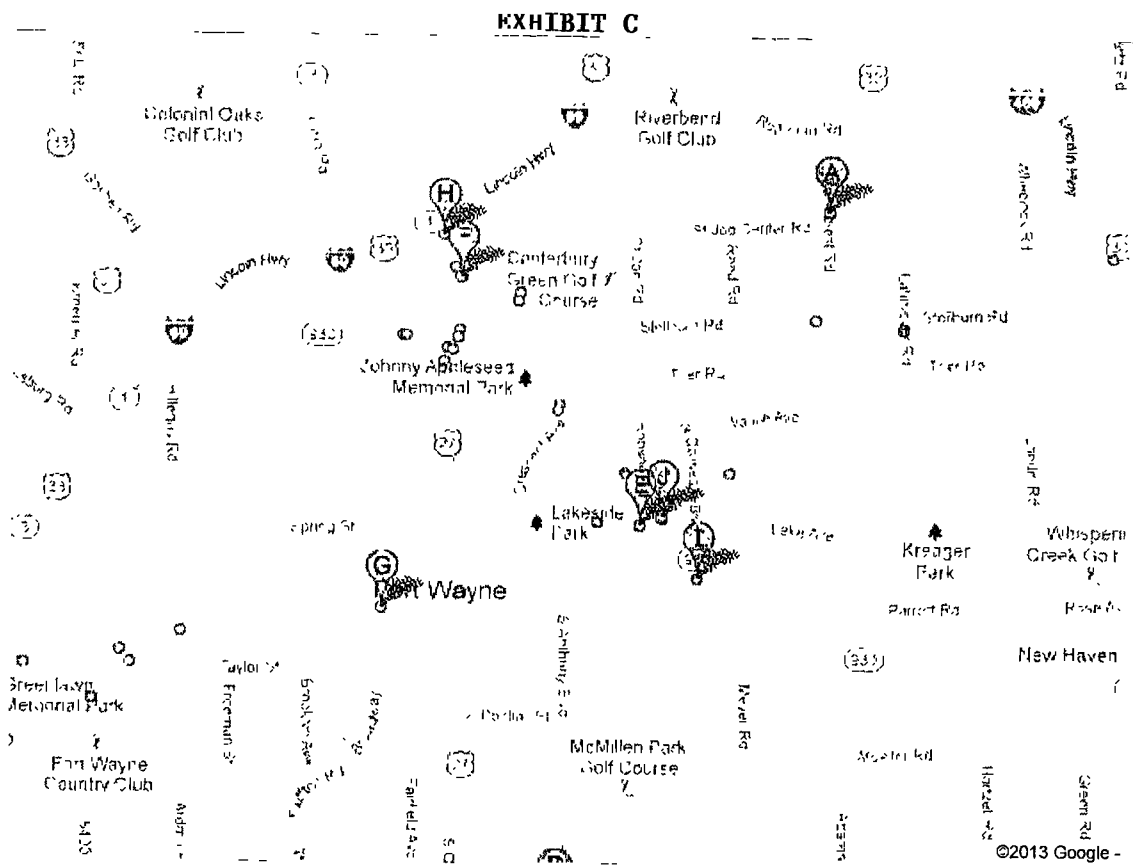

0-14 years 22.5%	25-44 years 26.1%	85+ years 1.8%
15-17 years 4.5%	45-64 years 25.6%	
18-24 years 9.4%	65-84 years 10.1%	

Private Practice Concentration in Fort Wayne

When looking at the location of optometrists in the Fort Wayne market area, St Joe Vision - Dr. Martin R White, OD is not located in a concentrated area of other optometric practices as shown in Exhibit C.

Summary

In summary, with the increased competition from large corporate providers and lower insurance reimbursements, margins will continue to contract and thereby negatively impact the performance of private-practice optometrists. The tax abatement would allow some temporary financial relief. In addition, the expansion will create another job - an optician which will earn \$28,000 annually.
