In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

Currently this portion of land is zoned at an industrial level, and is being underutilized. The only function of the land now is farming. With our planned improvements, the land will be utilized to bring not only more employment to the Fort Wayne area (an estimated addition of at least 28 employees by 2017), but also more taxable revenue to the city of Fort Wayne.
