In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

Sweetwater Sound's current facility has become too small to fit the company's continued and expected growth. It is impossible for the company to grow at its current location because there is no other existing improvements or infrastructure within the immediate area into which the company can expand. It's growth is dependent upon the expansion of its current facility by building a new facility to house its growth. There is no additional development or other infrastructure that can meet its needs and therefore it is necessary to construct these improvements at this location.
