In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

Through our starting an independent medical practice, during a time when most other medical practices are selling out to the larger hospital systems, we are revitalizing a traditional form of practice and offering a unique service to the area's patients through the nature of our being private. Additionally, we are able to offer to patients the ability of being their sole physician during their medical care from clinic visits through when their medical needs require a hospital stay, which is again, a dying form of practice among primary care physicians. As such, we draw patients from not only the surrounding area, but distant areas as well, as patients value and seek the services and care we can provide as a private, independent physician. By starting this independent practice, we not only →

→ acquire the autonomy we seek and provide the care patients desire, but we stand as an inspiring example to other physicians and medical residents that this form of practice is an attractive and valuable option for practicing medicine.
