Surveyor's Report ~ Lot 4 and Part of Lots 2, 3, & 5 in Elzey's Third Addition to the Original Plat of Waynedale

SURVEYOR'S REPORT

In accordance with Title 865, Article 1, Rule 12, Section 1 through 30 of the Indiana Administrative Code, the following opinion is submitted regarding the various uncertainties in the locations of the lines and corners established on this parcel as a result of:

a) Variances in the reference monuments; b) Discrepancies in the record descriptions and plats; c) Inconsistencies in lines of occupation; d) Relative Positional Accuracy;

An electronic total station and data collector were used to collect data for physical location of pavement and lot corner monumentation was accomplished employing the total station using standard radial surveying techniques and dual GPS receivers. The bearing used as basis for this survey was derived by dual frequency GPS receivers connected to INDOT CORS Network.

INTENT: To retrace Lot 4 and parts of Lots 2, 3, & 5 in Elzey's Third Addition to the Original Plat of Waynedale; as described in Document Number 206047077 and 2014051209 all in the Office of the Recorder of Allen County, Indiana.

OCCUPATION: Shown on plat.

MONUMENTS FOUND: Found monuments, record descriptions, and recorded plat were used to establish the subject tract.

Existing Lot corners were found as noted, corners not found were set as noted.

AMBIGUITIES: None

VARIATIONS:

Dimensions shown as Meas. (measured) were made by inverting between found monuments. Dimensions shown as Calc. (calculated) were developed with the intent to maintain the geometric relationship of the deed description in correlation to the monuments found. As a result of the above findings, it is my opinion that the uncertainties in the locations of the lines and corners of this surveyed parcel are as follows:

Due to Variances in reference monuments	See Certificate of Survey
Due to Discrepancies in the record descriptions:	none
Due to Inconsistencies in lines of occupation:	none

The calculated Relative Positional Accuracy due to random errors in measurement of the corners of this survey is within the specifications for a Suburban Survey as defined in IAC 865.

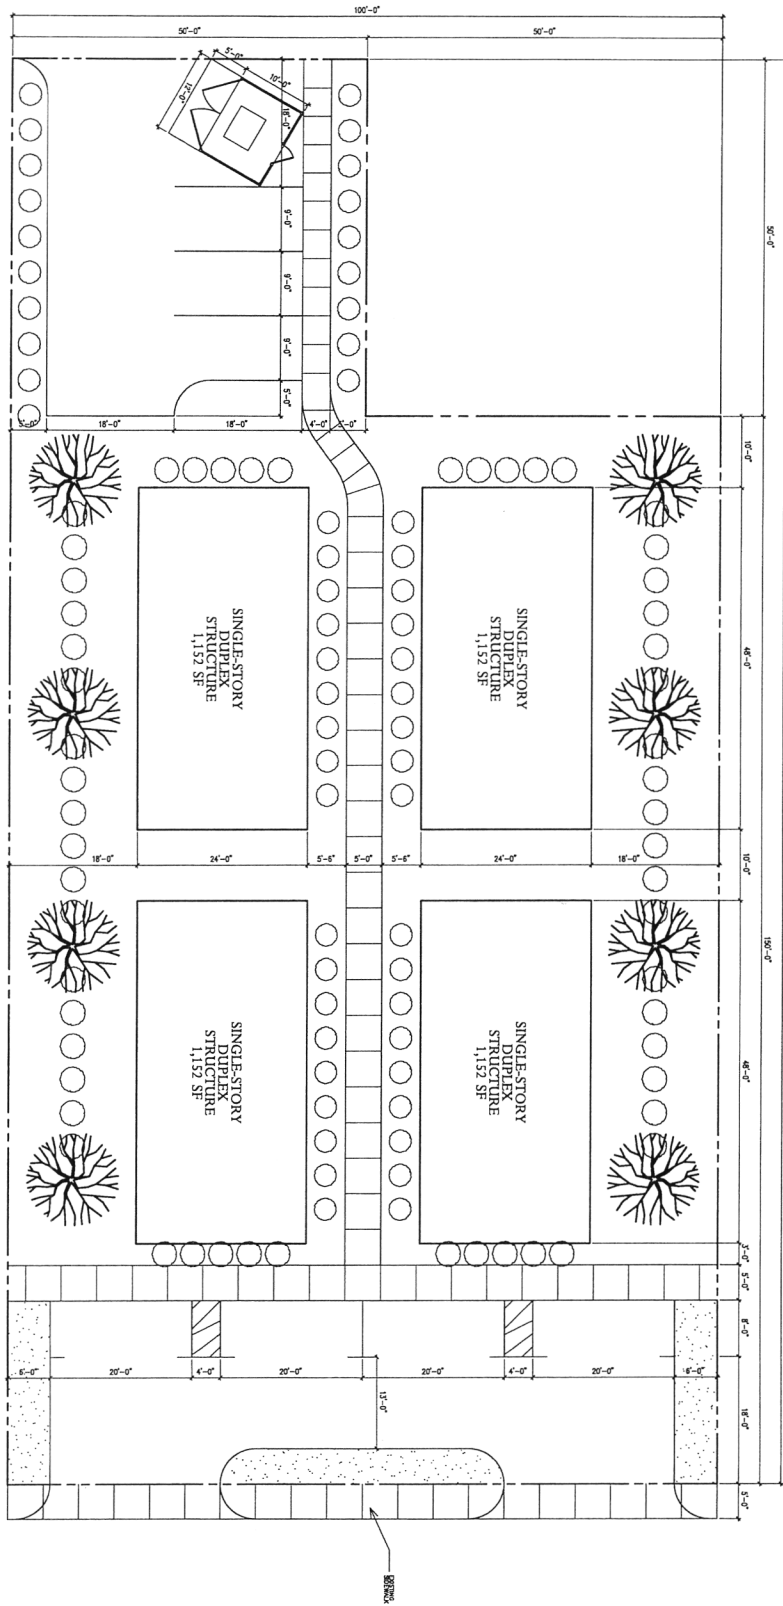

REFERENCES:

The opinion of this survey is based on the evidence extant at the date of this survey. A commitment for title insurance was not provided to this surveyor at the time of this report. An abstract or title search may reveal additional information affecting the property.
