NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA;

CITY OF FORT WAYNE

COVID-19: Employee and Operations

Effective as of 03/18/20

OVERVIEW

In response to the national COVID-19 state of emergency, the City of Fort Wayne is implementing a policy to maintain continuity of essential city functions. This policy enhances the City of Fort Wayne Policy and Procedure manual and does not automatically apply to employees of Public Safety, 24/7 or emergency operations. City employees will remain eligible for Public Health Leave provisions as long as they meet the requirements listed herein until such time as the policy is altered. The provisions of this policy will continue for a defined period until April 14, 2020 with review and possible modification as conditions change. Any unused Public Health Leave hours will expire at the discontinuance of this policy.

COMPENSATION

This Public Health Leave policy will provide employees with benefits based on an 8-hour shift and a 40-hour week as defined below.

1. 100% of a 40-Hour Week (8 hours per day not to exceed a total of 80 hours).
 - a. Employees quarantined by a healthcare professional due to a current diagnosis of COVID-19. *Employees must provide a doctor's note and submit short term disability paperwork.*
 - b. Employees quarantined by a healthcare professional due to compatible symptoms until diagnosis of COVID-19 is confirmed or 4-5 days after symptoms have ended. *Employees must provide a doctor's note and submit a completed Public Health Leave form.*
 - c. Employees quarantined at the instruction of a local, state, or federal official to prevent the spread of COVID-19.

2. 75% of a 40-Hour Week (6 hours per day not to exceed a total of 60 hours).
 - a. Employees in self-imposed quarantine due to living in the same household with or caring for a person in a non-healthcare setting that has been diagnosed with or presents compatible symptoms of COVID-19. *Employees must provide a doctor's note and submit a completed Public Health Leave form.*
 - b. Employees at increased risk for complications from COVID-19 due to diagnosed health conditions and are currently under the care of a physician. *Employees must provide a doctor's note and submit a completed Public Health Leave form.*
 - c. Employees who are engaged in primary caregiving, because of the COVID-19-related closing of a school or other care facility or care program, for a child or other individual unable to provide self-care. *Employees must submit a completed Public Health Leave form.*
 - Intermittent leave and partial days are permitted.

COVID-19: Employee and Operations

Effective as of 03/18/20

- If two or more caregivers are city employees, only one caregiver is eligible for Public Health Leave per day.
 - If the school closure occurs when the employee already had scheduled the use of benefit time, the employee must use their benefit time as planned if they do not report to work.
- d. Any Employee who has exhausted the benefits provided in section 1 hereof shall be eligible for the benefits provided in this section 2 provided that the Employee continues to meet any one of the criteria identified in section 1.

Upon depletion of Public Health Leave hours, if the employee still meets one or more of the criteria below, they may continue paid time off by using accrued sick, personal, or vacation time. Upon depletion of accrued time, the employee may continue time off without pay. Employees will be asked to document and affirm eligibility factors.

ELIGIBILITY

1. Employees are not eligible for Public Health Leave if:
 - a. The employee is currently receiving full or partial wage replacement due to a specifically defined qualifying event of the Family and Medical Leave Act of 1993. The employee may become eligible for Public Health Leave when the qualifying event is no longer applicable or the set period of benefits is exhausted.
 - b. The employee is currently receiving short term disability as defined in the City of Fort Wayne Policy and Procedure manual.
2. Employees who knowingly falsify eligibility may be subject to disciplinary action up to and including termination as outlined in City Policy 304.

MODIFICATION TO NORMAL OPERATIONS

While the primary goal is to keep operating as normal as possible for as long as possible, there may be situations in which modifications to department operations or service offerings must take place. Division Heads will determine modifications to operations on a department-by-department basis.

1. Departments should immediately enact social distancing practices (separation of at least six feet) where possible. This may lead to limits on public interactions with your department. Please balance these considerations with the goal of ensuring continuity of operations.
2. If CDC-recommended social distancing measures are insufficient, departments may need to consider further reductions in physical proximity to the public, up to and including closing offices to the general public to reduce further spread of COVID-19.
 - a. Departments should ensure that the public is informed of alternate methods of conducting business with the department and if no alternate methods exist, may

- need to consider temporary modifications of processes, procedures, rules, and deadlines.
- b. Departments may also need to consider alternate methods of conducting business due to a lack of available employees. To increase employee availability, departments may need to permit flexing work hours or permitting remote work where feasible and manageable.
3. Alternate work arrangements (e.g. flex time, working remote) must be approved by Division Heads. Current overtime requirements for non-exempt employees will continue under this policy in accordance with Fair Labor Standards Act.
 4. Employees at increased risk for complications from COVID-19 due to diagnosed health conditions and whose job function requires close contact* but who are otherwise healthy and able may request temporary duties modifications from their supervisor. This may include a temporary change in job location for front-line staff, modifications of work assignment or duties, or implementation of additional protective measures to reduce exposure to others or chances of being infected.
 - a. If job modifications are not possible, the employee automatically meets qualifications for Public Health Leave.
 - b. Except for employees who formally request a change in job circumstances due to underlying health conditions, concerns about the potential for COVID-19 infection will generally not result in the employee being reassigned to new duties, locations, or roles.
 5. If CDC-recommended measures are not sufficient to reduce the spread of COVID-19, the Mayor may elect to close city facilities to the public and employees. In the unlikely event of this closure, all non-Essential Personnel will automatically be placed on Public Health Leave at 100% of their pay at the regular rate of pay. Essential Personnel named in the City's Continuity of Operations Plan who must report to work during these extreme conditions may be eligible for additional benefits yet to be determined.

**The Centers for Disease Control defines close contact as a) being within approximately six feet of a COVID-19 case for a prolonged period of time. Close contact can occur while caring for, living with, visiting, or sharing a healthcare waiting area or room with a COVID-19 case, or b) having direct contact with infectious secretions of a COVID-19 case (e.g., being coughed on).*
