Memo

To: Council and Purchasing
From: Larry Campbell, Fleet Director
Date: November 16, 2012
Re: Catch Basin Sewer Cleaner for Water Pollution Control Maintenance

In regards to the Combination Catch Basin Sewer Cleaner for the Water Pollution Control Maintenance Department (WPCM): please award to Brown Equipment for a cost of \$172,950. This is being mounted on an International Chassis that was a roll over from International and Selking International that was bid out in 2011 -ITB #3366. The chassis was approved earlier in the year for \$114, 638. **Total for equipment and chassis \$287,588.**

The purchase was proposed and approved in their 2013 CIP budget. This unit will replace a 1998 Clean Earth city unit # 48184. This unit is out of life cycle resulting in high maintenance cost. The decommissioned unit will be sold at auction after the new unit is put into operation.

We tried four different units – each of them were the same type of units and each unit was engineered differently. During the demo an evaluation sheet was done by each operator documenting their likes and dislikes. We also had a group meeting so they could voice their opinions regarding which unit would be best to do their job. Aquatech was the unit the operators like best. The City currently has two other Aquatechs and they have been very good pieces of equipment for the City. The operators would also be able to run the new equipment immediately because the units would be the same.

I checked pricing with National Intergovernmental Purchasing Alliance (NIPA) with the same options to do the same type of job and the cost from NIPA would be \$192,001. And surrounding states Catch basin cleaner equipment only. After comparing pricing with: National Intergovernmental Purchasing Alliance (NIPA), Brown Equipment was lower on a Catch Basin Cleaner. The delivery time is 90 days, after the chassis is delivered. Your consideration and approval for this purchase request is greatly appreciated.

Brown Equipment is registered as a Buy Indiana and a local company in Indiana. Catch Basin Cleaner manufactured in Ohio Chassis Garland Texas 100% USA products.

Thank you Larry Campbell
