COMMON COUNCIL DIGEST SHEET - SUPPLEMENTAL

Action Requested:

Requesting approval of an award to Brooks Construction in the amount of \$527,216.19 pursuant to Board of Works resolution 12300.

Note: Brooks Construction was lowest most responsive bidder among 4 bidders at 7.99% over the engineer's estimate.

Description and Scope of Work:

The limits of this project extend from just west of Reckeweg Road to roughly 1000 feet east of Taylor Street.

This area has had many turning movement conflicts including left turn movements from westbound Jefferson traffic onto Taylor Street.

This project seeks to construct a dedicated left turn lane for westbound Jefferson traffic at Taylor Street, but it will also retain the existing right turn lane for eastbound traffic turning right onto Taylor Street.

The project scope also includes a curbed street section that stops short of the eastern limit of the project. The curbed section will include a curbed grassy median from Reckeweg Rd to near Taylor Street and a center bi-directional turn lane east of Taylor Street up to a curbed island 755 feet east of Taylor Street.

The project will also include reconstruction of affected drive approaches, drainage improvements, milling, reprofiling, and resurfacing, ada curb ramps and lawn restoration.
