Subject: Yearly Maintenance for Infor Asset Management software

Members of City Council:

This ordinance is to authorize the purchase of yearly maintenance for asset management software from Infor Public Sector, Inc. for the maintenance and repair of the City's infrastructure. This year's cost of maintenance for this software is \$117,259.

The software is used to track assets for:

- Water Maintenance and Service (Mains, Hydrants, Valves)
- Water Pollution Control Maintenance (Mains, Manholes, Inlets),
- Street Department (Streets, Intersections),
- Street Light Operations (Poles, Lights).

The software also manages Inventory Tracking, Preventative Maintenance Scheduling, and Requests for Repairs for the above departments and Sewer Engineering.

This cost for this software is divided between Fort Wayne Civil City (25%) and Fort Wayne City Utilities (75%). The share was determined by the approximate ratio of infrastructure assets under control of the system.

Our decision to pay maintenance rests on four tests:

- Do we have a continuing internal commitment to use this software?
- Is the software vendor continuing to improve the product?
- Is the vendor useful in solving problems with the software?
- If the software fails, what's the worst case scenario?

The Civil City and City Utilities both have substantial investments in the use of Infor Asset Management software. Infor provides regular updates to the software and supports our day to day operation of the software.

If you have any questions, please call me at 427-1461.
