Subject: Yearly Maintenance for Spillman Mobile software

Members of City Council:

This ordinance is to authorize the purchase of yearly maintenance for Spillman Flex Public Safety software from Motorola Solutions for the operation of the City's police, fire and 911 departments. This year's maintenance cost is \$360,231.

This payment is made annually and represents approximately one half of the Spillman maintenance cost. Allen County pays the other half of the maintenance.

In exchange for maintenance fees, the software vendors provide support for problems with the software and periodically provide new versions of the software.

Our decision to pay maintenance rests on four tests:

- Do we have a continuing internal commitment to use this software?
- Is the software vendor continuing to improve the product?
- Is the vendor useful in solving problems with the software?
- If the software fails, what's the worst-case scenario?

The City and County both have substantial investments in the use of Spillman software. Motorola Solutions provides regular updates to the software and supports our day-to-day operation of the software.

This software is critical to the daily work of police, fire, and 911 dispatchers. Based on these factors, I strongly recommend continued funding of Spillman maintenance.

If you have any questions, please call me on 427-1461.
