PROJECT SUMMARY

- The property is currently zoned R1 and has vacant buildings on site. The historical use of the land was single family residential.

The petitioner requests a rezoning from R1/Single Family Residential to C3/General Commercial to allow the development of an expansion to the existing Storage Express development to the west. The expansion will allow the applicant the ability to provide additional self-storage opportunity in the northeast Fort Wayne area.

The proposed rezoning parcel is located on the south side of St. Joe Center Road just east of the existing Storage Express location. The site also is immediately east of the Marathon gas station. This parcel has not had any previous zoning petitions or Board of Zoning Appeals applications. This proposed expansion will be complementary to the existing Storage Express location, which is also zoned C3/General Commercial. The site in the past was utilized as a metes and bounds residential parcel. The parcel bordering the site to the east is an approximately 1 acre home site with the home and accessory buildings fronting on St Joe Center Road. Two lots within Sunny Meadows Addition are adjacent to the east, but the portion of the site they are adjacent two would be used as detention and drainage. The properties are on the north side of St. Joe Center Road are residential in nature, and have their access directly onto St. Joe Center Road. The original Storage Express site to the west was constructed in the mid-1980s. It consists of 13 single-story buildings, and an office within the northernmost building. A cell phone tower was approved by the Board of Zoning Appeals along the south side of the existing Storage Express site. According to property record cards, the Marathon gas station was constructed in the mid-1990s.

The applicant has proposed a written commitment associated with the rezoning request to C3/General Commercial. The commitment has language prohibiting the following uses:

- a. Animal grooming with outdoor runs;
- b. Animal Kennel or Obedience School with outdoor runs;
- c. Automobile Detailing and Trim Shop;
- d. Automobile Maintenance Facility (quick service);
- e. Automobile Repair Shop;
- f. Automobile Restoration;
- g. Automobile Sales Facility (new or used);
- h. Automobile Undercoating and Rust Proofing Service
- i. Banquet/Reception Hall
- j. Bar or Tavern;
- k. Billiard or Pool Hall;
- l. Bingo Establishment;
- m. Check Cashing Facility;
- n. Cigarette/tobacco/cigar store;
- o. Coin Shop;
- p. Collection Service;
- q. Convenience Store;
- r. Dance Hall;
- s. Fireworks Sales (indoor/outdoor);
- t. Funeral Home;
- u. Gas Station/Service Station;
- v. Gun and Retail Firearms Sales;
- w. Hotel;
- x. Haunted House
- y. Laundromat/Coin-Operated Laundry;

- z. Motel;
- aa. Night Club;
- bb. Non-profit Private Club;
- cc. Package Liquor Store;
- dd. Recycling Collection Point;
- ee. Rescue or Revival Mission or similar use;
- ff. Shooting Range (indoor);
- gg. Stadium;
- hh. Tattoo Establishment;
- ii. Tire Sales Facility;
- jj. Animal Raising or Breeding as a Special Use

The proposed zoning district can be supported by the Comprehensive Plan in that it will offer infill development and investment in the area. The proposal will provide additional self-storage options in the northeast quadrant within close proximity to neighborhoods, and multi-family residential developments which may not have a large amount of on-site storage. The comprehensive plan supports this development through the following objectives:

- LU1.** Encourage carefully planned growth by utilizing the conceptual development map as part of the community's land use decision-making process;
- LU3.** Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
- LU5.** Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;
- LU8.** Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

The personal storage development is proposed to be developed with four single story buildings totaling 34,600 square feet. The structures are proposed to match the architecture of the existing buildings. The applicant is proposing to utilize the currently installed curb-cut to St. Joe Center Road, and also use internal access to the existing development. The development meets all applicable setbacks and height requirements for the C3 zoning district. There are no waiver requests proposed as part of this development plan request.

Stormwater detention will be provided in a new basin on the south side of the site, which will then be controlled release to the drain crossing the southern portion of the site. The site is proposed to be fenced in with ornamental fencing (with landscaping), along the north and west sides of the site, visible from St. Joe Center Road and along the gas station. Privacy fencing is proposed along the residential district to the east, and a chain link fence to the south. The area along the drain and to the south will remain in its natural vegetative state according to the plans.
