## PROJECT SUMMARY

### **PUBLIC HEARING SUMMARY:**

Presenter: Stacy Haviland, representing Fort Wayne Redevelopment, presented the proposal to the Plan Commission, as outlined above. Following the first public hearing on April 9, 2018, Redevelopment staff redesigned the zoning boundaries of the BTI and I1 districts, based on concerns of the neighbors.

### Public Comments in support:

None

### Public Comments in opposition or with concerns:

- Alan Bell – submitted letter representing 85 signatures of neighbors. They are pleased with the change in the zoning boundaries. There is still concern over the access to West Washington Center Road.
- Herb Berg – Also appreciative of the zoning change. He prepared a plan to share with Redevelopment staff showing how two access points could be placed on Flaugh Road, instead of using Washington Center.
- Adrian Perry, Kroemer Road – Would like to see Kroemer Road either closed, or closed to truck traffic due to Sweetwater Sound traffic.
- John Parks – More traffic from Sweetwater and AALCO distributing, now this development.
- Terry O'Connor, Northbrook – Concerned about traffic coming through the Northbrook neighborhood.

## FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

### Rezoning Petition REZ-2018-0012

APPLICANT: City of Fort Wayne Department of Redevelopment  
REQUEST: To rezone property from R1/Single Family Residential BTI/Business, Technology, and Industrial Park for a 15-parcel industrial and business park.  
LOCATION: The site is generally located on the north side of U.S. 30, on the east side of Flaugh Road, and on the south side of West Washington Center Road. Kruse Homestead Addition lies to the east of the property (Section 19 of Washington Township).  
LAND AREA: Approximately 116.6 acres for BTI/Business, Technology, and Industrial Park  
PRESENT ZONING: R1/Single Family Residential  
PROPOSED ZONING: I1/Limited Industrial and BTI/Business, Technology, and Industrial Park

---

**The Plan Commission recommends that Rezoning Petition REZ-2018-0012 be returned to Council with a “Do Pass” recommendation with a written commitment after considering the following:**

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The general area surrounding the site is a mixture of industrial, commercial, and residential uses.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The US 30 and West Washington Center Road corridors have seen a variety of uses. The primary development plan proposed to leave a substantial buffer of existing vegetation and new landscape screening to buffer the proposal from adjacent residential uses.
3. Approval is consistent with the preservation of property values in the area. This proposal is consistent with surrounding zoning classifications and the mixed use character of the West Washington Center Road and US 30 Corridors.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. This proposal is to allow development on an underused site, which is in close proximity to similar zoning and land uses.

These findings approved by the Fort Wayne Plan Commission on May 21, 2018.
