## PROJECT SUMMARY

### SITE HISTORY:

- The site is partially developed with gas pumps/canopy and convenience store. The northern portion of the site is a landscape buffer.
- It appears that the site has been used commercially since the 1950's. A variance was granted in 1989 to add a drive access for the gas station on the residentially zoned northern portion.

The petitioner requests a rezoning from C2/Limited Commercial and R1/Single Family Residential to C3/General Commercial to allow the existing use of the property to comply with the current zoning ordinance. The existing gas station and convenience are located at 4230 Fairfield Avenue, at the intersection with Maxine Drive. The developed gas station portion of the property is located on the C3 zoned area. The northern third of the property remains zoned R1/Single Family Residential. In 1989, National Oil & Gas petitioned the Board of Zoning Appeals to expand the site onto the residential piece for the purpose of a drive access to Fairfield Avenue. The variance was approved, with the condition that the gas station use was not expanded onto the residential property, and landscaping and fencing was installed.

Until the Zoning Ordinance Amendment in 2014, a gas station was a permitted use in the C2 zoning district. The petitioner seeks the allowance of the existing gas station, and the ability to maintain, expand and improve as allowed for a permitted use. The petition includes rezoning both the commercial and residential property. Along with the rezoning request, the petitioner has submitted a voluntary Written Commitment governing uses on the property. If approved, all but four C3 /General Commercial uses will be **prohibited**. Those new C3 uses proposed to be **permitted** are:

- (1) Automobile car wash
- (2) Gas station
- (3) Propane/bottled gas sales and service as an accessory to a gas station or convenience store
- (4) Truck fueling station

The Comprehensive Plan encourages development that will not adversely affect the current conditions of an area or the character of the current structures in the area. Records show that this area has been used commercially since the 1950's, and commercial uses are established at all four quadrants of this intersection. While this proposal does not include any request to change or increase the intensity of the existing use, the rezoning of the residential portion would permit future development closer to the adjacent single family home. The building would have to follow the setback standards - currently 40 feet, meaning the building would not be any closer - but the active areas of the site could be closer. The applicant may want to consider this when finalizing the Written Commitment. Staff is not opposed to bringing the existing use into compliance with the ordinance with the proposed Written Commitment, or with amendments to the Written Commitment, depending on the outcome of public hearing discussion.

The comprehensive plan supports this development through the following objectives:

- LU1.** Encourage carefully planned growth by utilizing the conceptual development map as part of the community's land use decision-making process;
- LU3.** Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
- LU8.** Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

**PUBLIC HEARING SUMMARY:**

Presenter: Scott Federoff, representing the applicant, presented the proposal to the Plan Commission, as outlined above.

Public Comments:

Ned Eddington, Fairmont Neighborhood Association – not opposed to the rezoning but wants the neighborhood to be respected. They are trying to make improvements and this commercial intersection is important.

### Rezoning Petition REZ-2019-0028

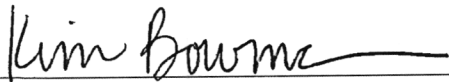

APPLICANT: National Oil & Gas, Inc.  
REQUEST: To rezone property from C2/Limited Commercial and R1/Single Family Residential to C3/General Commercial to bring the existing gas station use in conformance with the Zoning Ordinance.  
LOCATION: The site is located at the northwest corner of Fairfield Avenue and Maxine Drive. The address of the subject property is 4230 Fairfield Avenue (Section 23 of Wayne Township).  
LAND AREA: Approximately 0.4 acres  
PRESENT ZONING: C2/Limited Commercial and R1/Single Family Residential  
PROPOSED ZONING: C3/General Commercial

---

**The Plan Commission recommends that Rezoning Petition REZ-2019-0028, with a Written Commitment, be returned to Council with a “Do Pass” recommendation after considering the following:**

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The existing gas station and convenience store have served this neighborhood for decades. The remaining three corners of the intersection are also zoned for commercial uses. The purpose of the rezoning is to allow an existing use to comply with the zoning ordinance.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The use on the property is existing and is not proposed to change. A proposed Written Commitment prohibiting all but existing C3 uses will protect surrounding property owners from new intensive or incompatible uses.
3. Approval is consistent with the preservation of property values in the area. This proposal does not increase the intensity of the existing use, and allows for the property to be maintained, expanded and/or improved, allowing for investment when desired or necessary.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area.

These findings approved by the Fort Wayne Plan Commission on June 17, 2019.
