PROJECT SUMMARY

SITE HISTORY:

- The property record card shows the residence being constructed in 1930. Staff has located no rezoning petitions on the site, so the industrial zoning has existed for decades. From historical aerials it appears that the home was the farmhouse associated with the agricultural use of the site before it was developed industrially around it.

STAFF DISCUSSION:

The petitioner is requesting to rezone the property to R1/Single Family Residential from I2/General Industrial. The property today is utilized as a single family dwelling, which is not a permitted use in the I2 zoning district. There is an interested party in purchasing the property, and the proper zoning is being requested for the transaction to occur. With a rezoning to R1, the use would be permitted. The property is landlocked from a public street, but from the documentation provided, it appears there is an ingress/egress easement in place to allow for access to Lakeview Drive.

From historical aerials, it appears that this residence was the farmhouse associated with agricultural uses surrounding it. When the agricultural land was developed with industrial use, it appears that the general area became industrially zoned, including the residence.

As mentioned, there is no development plan associated with this request and there are no structures proposed for this site at this time.

PUBLIC HEARING SUMMARY:

Presenter: James D. Smith, current owner of the property, presented the proposal to the Plan Commission, as outlined above.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

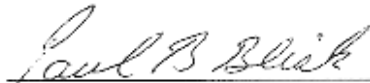

Rezoning Petition REZ-2019-0035

APPLICANT: James D. Smith
REQUEST: To rezone property from I2/General Industrial to R1/Single Family Residential to permit the existing residential use of the property.
LOCATION: The site is located to the east of the 2100 block of Lakeview Drive. The address of the subject property is 2128 Lakeview Drive (Section 33 of Washington Township).
LAND AREA: Approximately 0.4 acres
PRESENT ZONING: I2/General Industrial
PROPOSED ZONING: R1/Single Family Residential

The Plan Commission recommends that Rezoning Petition REZ-2019-0035 be returned to Council with a "Do Pass" recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. Although the general area surrounding the site is industrially zoned property, the use of this parcel historically has been residential. This rezoning continues the trend of responsible mixed-used development.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The existing residence will be utilized for a similar use by the proposed owner.
3. Approval is consistent with the preservation of property values in the area. This proposal would allow for continued business growth and investment on the site. No changes are proposed to the existing site.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. This proposal is not proposing extension of infrastructure. Public right-of-way with an improved street and public utilities are presently available to the site.

These findings approved by the Fort Wayne Plan Commission on July 15, 2019.
