PROJECT SUMMARY

SITE HISTORY

It appears that the majority of this property has been developed commercially since the 1950's. The single family house to be redeveloped was built in 1954.

STAFF DISCUSSION

Colony Shoppes is an existing retail strip center in Waynedale, just north of the Lower Huntington and Bluffton Road commercial area. It appears there have been commercial uses in various forms on the property for over 60 years. Recently a Little Caesars Pizza store and drive-through was constructed on the north end. A Family Dollar store anchors the south end of the shopping center, and a multi-tenant building lies in the center. There is a small stand-alone building (currently dog grooming) north of Little Caesars that will be demolished. North of the Colony Shoppes property is a single family house at 6411 Bluffton Road that will also be demolished so that the property can be added to the shopping center and redeveloped with a restaurant and drive-through. East of the shopping center is a single family neighborhood with single and multi-family zoning. There are a few homes to the north on Bluffton Road, but uses along the corridor are primarily commercial in nature, ranging from restaurants and shops to offices and auto parts.

The Colony Shoppes site is mostly C2/Limited Commercial, which allows the current uses. The southern parcel is zoned R1/Single Family Residential, which lies under a portion of the Family Dollar. And as mentioned, the proposal intends to add a residential parcel on the north end. The site plan includes a storage building on the east side of the site, behind the multi-tenant building, in approximately in the same location as a recently demolished building. The owner intends to rent this building for storage. Warehousing and storage requires C3/General Commercial zoning. It appears that all other uses on the site would fit within the C2/Limited Retail zoning district.

This property is in the very northern part of the recently adopted Bluffton/Lower Huntington Corridor Improvement Plan. Goal 3 of the plan is to encourage the rezoning of areas where existing and/or proposed land uses are compatible. Goal 4 encourages new development, redevelopment and property improvements that are compatible with adjacent neighborhood uses. While this property is not identified in the plan for a specific recommended zoning, the goals of the plan can still be applied to this area. Goal 4, Policy A encourages the use of the City's Commercial Façade Grant Program, and Colony Shoppes was a recipient of a façade grant a few years ago. The multi-tenant building received a fresh façade and new signage, and is featured in the plan itself. Goal 3, Policies A and B focus on zoning classifications and intensity: Encourage low intensity and neighborhood oriented uses that focus on the needs of the surrounding community and to use less intensive commercially zoned districts as a buffer between residential uses and higher intensity commercial and industrial uses. While a storage building may be a rather low intensity use, with little traffic or activity, the C3 zoning that is required could permit many commercial uses that are inappropriate adjacent to residential and do not support the policies of the Bluffton/Lower Huntington Corridor Improvement Plan.

Staff recommended that the rezoning proposal be supplemented with a Written Commitment to limit uses to those that are not compatible with the residential neighborhood or do not complement the investment that has been put into this property already. A Written Commitment could also cover such site issues as landscaping and lighting, which can aid in compatibility. Any amendment of the commitment would require approval by the Plan Commission and a public hearing.

The proposed development could be supported by the Comprehensive Plan in that it will offer redevelopment and further investment in the area.

The comprehensive plan could support this development through the following objectives:

LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;

LU5.C Encourage development proposals that provide neighborhood commercial, civic, institutional and other similar uses, designed to allow adequate access for pedestrians and bicycles, in close proximity to housing.

LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.

LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

Much of the site will remain as it is today. The multi-tenant building, the Little Caesars restaurant and the Family Dollar will remain. Two buildings will be demolished: the single family house at 6411 Bluffton Road, and the dog grooming business. A third structure was recently removed behind the shopping center. Access to the center will remain the same, and the north point on Bluffton Road will serve the proposed restaurant. It appears that all zoning ordinance requirements will be met, utilizing existing privacy fencing to meet some of the landscape standards. A new trail was recently installed along Bluffton Road, and a new sidewalk is proposed to connect from the new restaurant to the trail.

PUBLIC HEARING SUMMARY:

Presenter: Kevin McDermitt, engineer, presented the proposal to the Plan Commission, as outlined above. Chuck Hockema, developer, also answered questions.

Public Comments:

- Karen Hill and Dan Hill, 6509 Liberty Drive – they would like to look at plans. They have concerns over having a buffer between their property and the development.
- Beulah Madzic – Feels Bluffton Road is very congested and there is too much development. She does not want to see the dog grooming business go away.

Rebuttal:

Chuck Hockema spoke as an investor with the owner, Dr. Joel Johnson. He stated that all fencing would be replaced or repaired as needed and buffering would meet the zoning ordinance. The new warehouse will be smaller than the buildings being replaced. The dog grooming business will remain as long as their lease on the building lasts.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

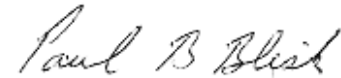

Rezoning Petition REZ-2019-0036

APPLICANT: Colony Shoppes, LLC – Chuck Hockema
REQUEST: To rezone property from R1/Single Family Residential, R3/Multiple Family Residential, and C2/Limited Commercial to C3/General Commercial for two additional commercial structures at the Colony Shoppes.
LOCATION: The site is located on the east side of Bluffton Road, north of Liberty Drive (Section 27 of Wayne Township).
LAND AREA: Approximately 2.4 acres
PRESENT ZONING: R1/Single Family Residential, R3/Multiple Family Residential, and C2/Limited Commercial
PROPOSED ZONING: C3/General Commercial

The Plan Commission recommends that Rezoning Petition REZ-2019-0036, with a Written Commitment, be returned to Council with a “Do Pass” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. Colony Shoppes has invested in the property with community façade grants and continues to make improvements on the property. The use of a Written Commitment will prohibit uses that may not be compatible with existing uses in the area. This proposal will provide infill development using existing infrastructure.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan and architectural review from the Plan Commission and staff will ensure a compatible development that complements the neighborhood. A voluntary Written Commitment will tailor the permitted uses which will not adversely impact the neighborhood.
3. Approval is consistent with the preservation of property values in the area. Commercial uses are prevalent in the area. The proposed site design is consistent with corridor development and meets all zoning ordinance design standards.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments indicates that the site can be developed for the proposed uses and adequate infrastructure is available to service the site.

These findings approved by the Fort Wayne Plan Commission on July 15, 2019.
