PROJECT SUMMARY

SITE HISTORY:

- The site has been developed with commercial/industrial uses since the early 1970's. The existing multi-tenant building appears to have one active tenant.

STAFF DISCUSSION:

The petitioner is requesting to rezone the property that comprises 909, 919, and 929 North Coliseum Boulevard. The existing building, known as Eastland Plaza, has multiple tenant spaces, including Atlas Restaurant Supply. The prospective buyer, Nalin Kumar, owner of several businesses, intends to relocate to Fort Wayne and start a business at this location. The primary use at this location would be a research and development facility that would include warehousing, manufacturing, machine testing, assembly and fabrication of industrial controls, scientific and precision instruments, and specialty equipment. The applicant is requesting I2/General Industrial because it would allow all proposed uses, and allow flexibility for retail uses for the remainder of the tenant spaces.

The North Coliseum Boulevard corridor, from the Maumee River to Lake Avenue, has experienced a decline in active retail businesses in the past 10 to 15 years. Frank's Nursery, K-Mart, Value City, and Home Depot, all bigger-box retailers, closed during that time period. However there has been some reinvestment along the corridor lately, and a new Dollar General retail store was completed last year. The predominate zoning of the corridor does not reflect the majority of the current uses, and it is not the desired zoning district for reinvestment along Coliseum Boulevard. C4/Intensive Commercial is the most permissive of the commercial districts, allowing the widest variety of outdoor commercial uses, and also sexually oriented businesses. Rezoning to I2/General Industrial could be considered a downzoning, as the impact of I2 uses are more in line with C2 commercial uses. Outdoor storage is limited and shall be screened, and all operations shall be performed indoors. The applicant is also willing to provide a Written Commitment to restrict uses. Staff pointed out several I2 uses that might encourage more outdoor storage or display, or have more of a visual impact on the corridor. The remaining uses in I2 would give the applicant flexibility to find new tenants to invest in this site. Staff is mostly concerned with setting a desired precedent for reinvestment along the corridor. The I2/General Industrial zoning with a Written Commitment will suit the new owner's desired uses while limiting future negative impacts on the corridor.

The proposal can be supported by the following goals and policies of the Comprehensive Plan:

LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;

LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

PUBLIC HEARING SUMMARY:

Presenter: Henry Najdeski presented the proposal as outlined above.
