## PROJECT SUMMARY

### SITE HISTORY

- Vacation of Broadmoor Addition Lots 3-5 was reaffirmed in 2017, including vacation of the plat and restrictive covenants.
- Vacation of Broadmoor Addition Lots 1, 2, 57-60 in July 2020, including the plat and restrictive covenants.
- A portion of the property was rezoned in 2000 to Neighborhood Shopping Center.
- A written commitment was recorded in 2019 (associated with the vacation petition in 2017).

### DISCUSSION

The approximately 4 acre property is proposed to be rezoned to C1/Professional Office and Personal Services for a new Fort Financial Credit Union headquarters. A number of properties are under option to be redeveloped. The current zoning of the site is NC/Neighborhood Center, C2/Limited Commercial, and R1/Single Family Residential. The real estate has long been discussed for commercial redevelopment, with a portion being rezoned commercial nearly 20 years ago in the jurisdiction of unincorporated Allen County. Various vacation petitions have occurred over the years to remove restrictions and platted lines associated with Broadmoor Addition. Now that the subject real estate is vacated from the plat, the applicant is requesting the rezoning petition and primary development plan for the development of the site. In addition to the rezoning and primary development plan, a written commitment was placed on a portion of real estate (former Lots 3-5 of Broadmoor Addition), associated with the 2017 vacation petition.

The immediate area is a mixture of retail, office, and residential development of varying densities. A number of underused properties along the State Road 3/Lima Road corridor have redeveloped with the infrastructure improvements done to the roadway in recent years. Now, over 40,000 vehicles per day traverse State Road 3/Lima Road along this site. Recent developments at the intersection of State Road 3/Lima Road and West Wallen Road include: Lalos restaurant, AutoZone, and Redwood Apartments. Metes and bounds residential lots along State Road 3/Lima Road have become undesirable for residential use as development grows and traffic increases. A portion of the site is already zoned for retail commercial uses, and the applicant is proposing to downzone the area along State Road 3/Lima Road to C1. The portion of the site with single family homes is zoned R1, and is also proposed to be rezoned to C1.

The proposal could be supported by the following goals and polices of the Comprehensive Plan:

**LU3.** Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;

**LU5.** Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;

**LU5.C** Encourage development proposals that provide neighborhood commercial, civic, institutional and other similar uses, designed to allow adequate access for pedestrians and bicycles, in close proximity to housing.

**LU6.** Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.

**LU6.C** Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.

**LU6.D** Support carefully planned, coordinated, compatible mixed-use development.

**LU8.** Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

The structure is proposed at 30,000 square feet and two stories (36 feet in height). Building renderings are included with the notebook. The proposal also includes a canopy for drive-through banking. Parking surrounds the building and is in excess of the minimum parking standard. Two vehicular access points are proposed to the site: a full access point to West Wallen Road, and a right-in/right-out access point to State

Road 3/Lima Road. A detention basin is proposed on the south side of the site near Broadmoor Drive. The landscape plan around the perimeter of the site and the landscaping islands in the parking lot meet the intent of the Zoning Ordinance. Lighting and signage will meet the standards of the Zoning Ordinance. The site will install pedestrian facilities along all public streets that do not have them today, and also provide an internal connection from the building to the sidewalk/trail network. No waiver of development standard is requested with the primary development plan.
