DIGEST SHEET

Department of Planning Services

Title of Ordinance: Zoning Map Amendment
Case Number: REZ-2020-0045
Bill Number: Z-20-11-08
Council District: 2-Russ Jehl

Introduction Date: November 24, 2020

Plan Commission
Public Hearing Date: December 7, 2020 (not heard by Council)

Next Council Action: Ordinance will return to Council after recommendation by the
Plan Commission

Synopsis of Ordinance: To rezone approximately 4.93 acres from I1/Limited Industrial to
C3/General Commercial.

Location: 7811 North Clinton Street

Reason for Request: To permit a 6,300 square foot building addition and bring all the existing
uses into compliance with the zoning ordinance.

Applicant: Brian Ringwood, Ed's Car Care Center

Property Owner: Brian Ringwood

Related Petitions: Site Plan Review

Effect of Passage: Property will be rezoned to the C3/General Commercial zoning district,
which will bring all the existing auto services on the property in
compliance with the zoning ordinance.

Effect of Non-Passage: The property will remain zoned I1/Limited Industrial. The current
ordinance would not permit all the auto services performed at Ed's Car
Care Center. The existing buildings and uses could remain, but expansion
and further investment into the property with the current uses could not
be approved without Board of Zoning Appeals action or rezoning to the
appropriate district.

PROJECT SUMMARY

The applicant proposes to rezone the existing property to conform to existing uses. In addition, the applicant proposes to expand the existing business with a Primary Development Plan. While no other Plan Commission action has been petitioned on the parcel, Board of Zoning Appeals petitions include:

- VAR-2501-2001 (Increase the size of freestanding sign from 4 to 32 square feet – granted)
- VAR-1488-1987 (Expand automotive repair business – granted)
- VAR-955-1981 (Permit automotive repair business – granted)
- VAR-785-1979 (Antique Car repair business – granted)

The proposed rezone will bring the existing use (general automobile service) into conformance. Nonresidential zones flank the parcels in consideration on the north and south and likewise have nonresidential uses as of December 2020. Most of the adjacent parcels are zoned industrial or residential. Staff believes that the proposed rezone will help expand but not intensify any existing uses on the parcel. The proposed rezone will negate the need to petition the Board of Zoning Appeals if the applicant wishes to further expand the business, given the expansions meet City of Fort Wayne Zoning Ordinance standards.

A single family subdivision lies east of the parcels in consideration. Most of the zoning east of North Clinton Street between Washington Center Road and the I-469 underpass is residential. However, location is quite close in proximity to *Plan-It-Allen's* Dupont Road – Interstate-69 economic development target area (Map 2.9), making it compatible with the current Comprehensive Plan.

Due to the proximity of the expansive residential zones, staff recommends a written commitment to limit general retail uses that may not be compatible with the residential uses on the east side of North Clinton Street. The public hearing will provide an opportunity for any neighbors to comment on C3 uses that they see as not fitting the neighborhood.

The rezoning meets the *Plan-It-Allen's* goal to “support new development, revitalization, and redevelopment in areas currently served by adequate existing public municipal or private corporate sanitary sewer and water facilities” (LU3.A), making it compatible with the current Comprehensive Plan. The rezoning to C3 would also remove some of the industrial uses that are currently permitted such as distribution facilities and limited assembly/fabrication of various products.

The development plan includes a 6,300 square foot addition to the existing Ed's Car Care building. The development plan shows utilizing existing curb cuts and no alterations to the existing building. In addition to the expansion, the development plan shows 15 new parking spaces and room for a dry detention pond. Since no waivers were requested in the application, all ordinance standards should be met, including lighting being full cut-off, landscaping and buffering meet requirements, and sidewalks along the right-of-way.

PUBLIC HEARING SUMMARY:

Presenter: Brian Ringwood, Ed's Car Care, presented the proposal as outlined above. They met with North Pointe Ridge Association and received support. The new addition will allow for more cars to be stored inside while waiting on repairs.

Public Comments:

None

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

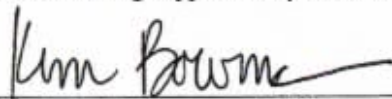

Rezoning Petition REZ-2020-0045

APPLICANT: Ed's Car Care Center – Brian Ringwood
REQUEST: To rezone property from I1/Limited Industrial to C3/General Industrial for a building addition and site improvements.
LOCATION: The site is located on the west side of the 7800 block of North Clinton Street, west of North Pointe Ridge subdivision (Section 7 of St. Joseph Township).
LAND AREA: Approximately 4.9 acres
PRESENT ZONING: I1/Limited Industrial
PROPOSED ZONING: C3/General Commercial

The Plan Commission recommends that Rezoning Petition REZ-2020-0045, with a Written Commitment, be returned to Council with a "Do Pass" recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The site is near similar commercial development and the proposal will provide for a live-work option. This proposal will provide infill development using existing infrastructure.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan and architectural review from the Plan Commission and staff will ensure a compatible development that complements the neighborhood.
3. Approval is consistent with the preservation of property values in the area. This proposal will provide redevelopment in the neighborhood with a market to serve the area residents, and provide a substantial investment into the community.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments indicates that the site can be developed for the proposed uses and adequate infrastructure is available to service the site.

These findings approved by the Fort Wayne Plan Commission on January 13, 2021.
