PROJECT SUMMARY

The petitioner requests a rezoning from AR/Low Intensity Residential to C1/Professional Office and Personal Services to permit a new medical office building. The property has been used residentially for decades. The proposed rezoning and development site is primarily surrounded by metes and bounds residential and a large acreage farm. IU Health is constructing a new surgery center just to the south of the property. The IU Health site was rezoned C1/Professional Office and Personal Services in 2012 for another medical use that did not come to fruition.

Just over a decade ago, Dicke Road was reconstructed and realigned from Aboite Center Road to just north of the subject property. Utilities are present at the IU Health site just to the south and both water and sewer service are required for development. A trail is present on the east side of Dicke Road along the improved section of roadway. About a quarter of a mile further north is Waterside Woods subdivision and Southwinds Church of Christ.

The large acreage property adjacent to the site is one of the last remaining large pieces of property in this portion of Aboite Township. On the west side of I-69, the Fort Wayne Plan Commission recently approved a plat for the Lakes of Heather Ridge on a 23-acre parcel.

The proposal can be supportive by the following goals and policies of the Comprehensive Plan:

LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.

LU6.C Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.

LU6.D Support carefully planned, coordinated, compatible mixed-use development.

The proposed site plan includes a new single building office. The building is proposed to be just over 9,000 square feet. The maximum building height in the current and proposed zoning district is 40 feet. The structure is surrounded on all sides by parking for the development. The parking number will exceed the Zoning Ordinance minimum. Currently there is no sidewalk along the frontage of the proposed redevelopment site and the site plan proposed construction of a public walk. A connection between the site and the public walk is also shown on the plans as required. The applicant is proposing to use the existing access cut to Dicke Road, and no additional access points are proposed.

Because the plan proposed parking adjacent to residential zoning districts, Code P-2 is proposed; a mixture of large shrubs with shade trees within a 10-foot width. Between the public right-of-way and Dicke Road, Code P-1 is proposed; a mix of small shrubs and shade trees. Lighting is required to be full cut-off on the site and light spill on neighboring residential properties is prohibited. No waivers are proposed with the primary development plan.

The applicant has submitted architectural elevations of the proposed new building and are included with this staff report.

PUBLIC HEARING SUMMARY:

Presenter: Alia Natafqi, applicant, presented the proposal as outlined above. She stated that the proposed medical office building is for her husband's physician practice. She will continue to work with the neighbors to have a compatible development. She agreed to install a fence on the north side for screening, and plans to have limited lighting.

Public Comments:

Kathy Cora, 3835 Dicke Road – In favor of the project but would like to keep the area dark as possible in the evenings.

Nancy Joust, 3823 Dicke Road and speaking for the Powells at 3906 Dicke Road – Not opposed to the project but have drainage concerns and would like to have screening for the Powells.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

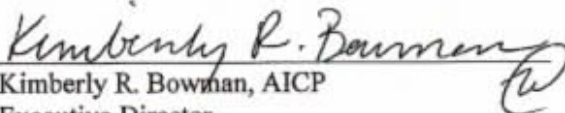

Rezoning Petition REZ-2021-0009

APPLICANT: Berlin Investments, LLC
REQUEST: To rezone property from AR/Low Intensity Residential to C1/Professional Office and Personal Services; and approve a primary development plan for a new single-building office development.
LOCATION: The address of the subject property is 3910 Dicke Road (Section 14 of Aboite Township).
LAND AREA: Approximately 1 acre
PRESENT ZONING: AR/Low Intensity Residential
PROPOSED ZONING: C1/Professional Office and Personal Services

The Plan Commission recommends that Rezoning Petition REZ-2021-0009, be returned to Council with a "Do Pass" recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The C1/Professional Office and Personal Services zoning will provide the opportunity to redevelop the aging home on the site while providing additional medical office opportunities in the Southwest quadrant of the City. This proposal is located within the Conceptual Development Map within the Comprehensive Plan.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan and architectural review from the Plan Commission and staff will ensure a compatible development that complements the area.
3. Approval is consistent with the preservation of property values in the area. This proposal will allow reinvestment into the property.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments will ensure the required infrastructure is provided to the site.

These findings approved by the Fort Wayne Plan Commission on April 19, 2021.
