Fact Sheet Prepared by:

PROJECT SUMMARY

The petitioner requests a rezoning from RP/Planned Residential to C2/Limited Commercial for a new multi-tenant retail space. The long-standing use as Neuhouser Plant Nursery was abandoned in 2012.

Redevelopment proposals have included a chimney sweep/repair business (denied by the Board of Zoning Appeals), and a "paint and sip" gallery (withdrawn). This is the first rezoning proposal to be submitted for review since the nursery closed. The applicant is primarily seeking the rezoning to permit a salon, which would fit in the C1/Professional Office and Personal Services district; however, they would also like a boutique to complement the salon services. Any retail sales as a primary use would require the C2/Limited Commercial district. The applicant originally submitted a Written Commitment that would restrict the C2 uses to those permitted in C1, and the "retail, limited" uses as defined in the ordinance. Following the public hearing and further discussions with neighborhood representatives from the Westwood-Fairway Community Association, the applicant further restricted the permitted uses resulting in the following list:

Accessory building/structure/use	Insurance agency
Advertising	Interior decorating store
Alteration service	Interior design service
Antique shop	Leather goods store
Apparel and accessory store	Luggage store
Art gallery	Legal service
Art instruction	Massage therapy
Art studio	Medical training
Art supply store	Mortgage service
Bakery goods	Nail salon
Barber shop	Nutrition service
Beauty shop	Painting studio
Book store	Photography studio
Bookkeeping service	Photography supply store
Candy store	Photography training
Clock sales	Physical therapy facility
Clothing alterations	Picture framing facility
Clothing store	Pilates instruction
Coin shop	Pottery sales
Consulting service	Rehabilitation facility
Cosmetic store	Sculpture studio
Craft instruction	Stained glass studio
Craft studio	Stationary store
Craft supply store	Tailor
Day spa	Tanning salon
Embroidery	Title company
Employment agency	Travel agency
Fitness center	Universally permitted use
Florist	Watch sales
Gift shop	Website service
Graphic design service	Wedding consultant
Gymnastics instruction	Weight loss service
Health center	Yoga instruction
Ice cream store	

The Written Commitment would run with property and not just the property owner. Any amendment of the commitment would require approval by the Plan Commission and a public hearing.

The comprehensive plan could support this development through the following objectives:

LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;

LU5. Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;

LU5.C Encourage development proposals that provide neighborhood commercial, civic, institutional and other similar uses, designed to allow adequate access for pedestrians and bicycles, in close proximity to housing.

LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.

LU6.C Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.

LU6.D Support carefully planned, coordinated, compatible mixed-use development.

LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

The proposed site plan includes a new multitenant commercial building. The 3-tenant space is 5,000 square feet. Access will come from Randall Road and parking will be located on the east and south sides of the building. Stormwater detention will be located in the north corner of the site. The zoning ordinance would require a sidewalk on both the West Jefferson and Randall Road frontages. Staff is seeking comments from Transportation Engineering whether sidewalks are feasible on this site.

Because the parking lot is adjacent to a residential zoning district, Code P-2 is required; a mixture of large shrubs with shade trees within a 10-foot width. Between the public right-of-way and Randall Road, Code P-1 is required; a mix of small shrubs and shade trees. Lighting is required to be full cut-off on the site and light spill on neighboring residential properties is prohibited. No waivers are proposed with the primary development plan.

PUBLIC HEARING SUMMARY:

Presenter: Scott Federoff, attorney representing the Rieckes, presented the proposal as outlined above. He stated that the applicant was willing to work with the neighborhood on fine tuning the permitted uses in the Written Commitment.

Public Comments:

John Hoffman, representing Westwood Fairway Community Association, spoke in support of the project with some concern for permitted uses. Would like to continue to work with applicant on the final list. Also, see attached letter.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

Rezoning Petition REZ-2021-0014

APPLICANT: Evan Riecke
REQUEST: To rezone property from RP/Planned Residential to C2/Limited Commercial for a new commercial building.
LOCATION: The site is located at the southwest corner of West Jefferson Boulevard and Randall Road. The address of the subject property is 4605 West Jefferson Boulevard (Section 8 of Wayne Township).
LAND AREA: Approximately 1 acre
PRESENT ZONING: RP/Planned Residential
PROPOSED ZONING: C2/Limited Commercial with a Written Commitment

The Plan Commission recommends that Rezoning Petition REZ-2021-0014, be returned to Council with a "Do Pass" recommendation with a Written Commitment, after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The site has been used commercially for many years and is unlikely to redevelop with a residential use. Commercial zoning will allow reinvestment into the property and offer local services to the neighborhood. The Written Commitment will prohibit uses that may not be compatible with existing uses along the West Jefferson Boulevard corridor.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan review from the Plan Commission and staff will ensure a compatible development that complements the neighborhood. A voluntary Written Commitment will tailor the permitted uses which will not adversely impact the neighborhood.
3. Approval is consistent with the preservation of property values in the area. The site has been vacant for nearly 9 years and is of need of redevelopment and reinvestment. The proposed layout is consistent with the Zoning Ordinance standards. This proposal will provide infill development using existing infrastructure.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments indicates that the site can be developed for the proposed uses and adequate infrastructure is available to service the site.

These findings approved by the Fort Wayne Plan Commission on April 19, 2021.

Westwood-Fairway Neighborhood Association

The objective of the Westwood-Fairway Neighborhood Association is the same that it has been since the development of Apple Glen and the Jefferson Pointe Shopping Centers. Once the Regional Shopping Center Symbol was placed for Apple Glen, the neighborhoods of Wildwood Park and Westwood-Fairway began advocating for the southside of West Jefferson Blvd. to develop with low intensity business uses as a buffer between the neighborhoods and the high intensity use Shopping Centers. The goal was to promote development with professional office and services that closed early and generated light vehicle traffic.

The plan commission should consider the future of this stretch of Road and what it should really look like. How viable is the Peter Franklin Development? With Covid that Developments potential for success looks different today than it did in 2017. The traffic department is struggling with approving a traffic plan and for good reason. Anything other than a right in and right out would be very dangerous. The neighborhood still contends that the appropriate development for the south side of West Jefferson Blvd. should be professional office and service. The real question is how viable is a retail center that at todays constructions cost is going to rent for a minimum of \$30 to \$40 a square foot in this location?

The property on the SW corner of Randall Road and West Jefferson Blvd. while having a West Jefferson address is unlike other properties on West Jefferson Blvd. along this stretch of Road.

In reviewing the zoning classifications, it seems that a new classification is needed for residential neighborhood businesses. The Packard area alliance zoning changes does not quite cover it. But how you deal with infill like the Friendly Fox, Italian Grocery etc. really did not fit any of the models I saw in the ordinance. As urban neighborhood changes and want more amenities zoning is going to have to adjust to that. This property almost fits that mold. It really is more Randall Road, Neighborhood, than West Jefferson.

There is a difference between a dress boutique that fits well in a neighborhood and larger clothing store which belongs in a shopping center. I could not find anything in the ordinance the differentiate the two. There is a big difference.

This project does not have access to West Jefferson Blvd. The only vehicle access is to Randall Road an unimproved chip and seal Road that lacks curbs, storm gutters and other improvements. Vehicles exit off West Jefferson often at a high rate of speed to cross traffic lanes. The width of the road at West Jefferson is poorly designed and dangerous when a vehicle is waiting to turn onto West Jefferson and another vehicle is making a turn from West Jefferson onto Randall Road. at the intersection. The entrance to the discussed property is not far from the intersection.

Traffic engineering should install a sign at the intersection of Randall and West Jefferson requiring right turn only. Cars attempting to turn left can back up cars on Randall Road well past the applicant's driveway.

The neighborhood is concerned about the use of C-2 Zoning and what precedent that sets for other development along this stretch of West Jefferson Blvd. In conversations with the planning department, I have received assurances that this commission can recommend C-2 zoning and that all unacceptable uses within the C-2 category be removed, leaving only appropriate business uses that would be suitable for this property. It is our understanding that this will offer better protection against undesirable business uses going forward.

We have provided a list below of what we consider acceptable uses identified from the C-2 Limited Commercial Use Categories. Categories not listed considered unacceptable.

That brings us to the property at Randal and West Jefferson Blvd. This project fits our goals. We had previously agreed to support the development of a salon for this site but it did not work out. We think this project would enhance the property while not adversely impacting the neighborhood. The dress shop should not be a concern in terms of traffic creation and should be a nice complement to the salon.

We would expect to receive additional information on the following:

- 1) Landscape and screening plans to protect the neighboring residential properties
- 2) Stormwater control plan.
- 3) Lighting plan to confirm exterior lighting will not interfere with residential neighbors
- 4) Hours of operation

We would like to see included in the written Commitment

- 1) All product sales must take place within the building interior.
- 2) Regular Hours of operation limited 7am to 9 pm
- 3) Sales of recreational Marijuana, Medical Marijuana, CBD oils, or other recreational drugs not sold or produced on this property. CBD Oil could be sold as a secondary product but not as a main line of products.
- 4) Delivery vehicles to and from this property must be able to access the property parking lot and not park on Randall Road while servicing the property.
- 5) Proper Screening provided to the neighbors to the West and South per ordinance and agreeable design with the neighborhood association.
