PROJECT SUMMARY

SITE HISTORY:

- Historically, four structures occupied the site (two residential dwellings and two commercial structures)
- A dwelling was demolished between 2008 and 2009 between the northernmost dwelling and the commercial structures.

The petitioner is requesting a rezoning from I1/Limited Industrial to DE/Downtown Edge. Historically, the site was most likely used for residential and neighborhood scale commercial. However, the site was surrounded by industrial zoning and by several buildings containing industrial uses. Recently, the initiative of Riverfront Fort Wayne has shifted the general area from various zoning districts (primarily industrial) to Downtown Edge. Essentially, the request of the petitioner is to annex the September 2021 Downtown Edge zoning request two parcels westward.

The current built environment of the site meets the intended development pattern of the Downtown Edge zoning district: historic setbacks, adequate height, and proper uses. Some development standards, like a height limit of 60 feet, may not provide the best compatibility for this specific site. Consequently, the applicant provided a written commitment limiting height to three stories and a height that is complimentary residential development (about 45 feet). In addition, staff recommends restricting some detracting uses to compliment transition between the River North site and the Bloomingdale neighborhood. The Downtown Edge zoning district also requires architectural review from the Design Review Committee and a Primary Development Plan to ensure proper design and development standards.

Overall, staff does not have issues regarding the rezoning, and the existing uses and development patterns justify the rezone. Staff believes the request meets the intent of the Comprehensive Plan and follows the path led by the City of Fort Wayne to reinvigorate downtown and the rivers.

PUBLIC HEARING SUMMARY:

Presenter: Ara Tazian presented the proposal as outlined above. A Written Commitment was offered that restricts certain uses and limits the height of buildings on the property to 45 feet, to better compliment the residential portion of the neighborhood.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

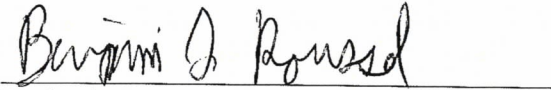

Rezoning Petition REZ-2021-0056

APPLICANT: Harrison Street Properties, LLC (South Bend Transport Services, LLC)
REQUEST: To rezone the property from I1/Limited Industrial to DE/Downtown Edge.
LOCATION: The site is located at the northeast corner of North Harrison Street and West 4th Street. The addresses of the subject properties are 1502-1514 North Harrison Street (Section 2 of Wayne Township).
LAND AREA: 0.29 acre
PRESENT ZONING: I1/General Industrial
PROPOSED ZONING: DE/Downtown Edge

The Plan Commission recommends that Rezoning Petition REZ-2021-0056 be returned to Council, with a written commitment, with a “Do Pass” recommendation after considering the following:

1. Approval of the request will be in compliance with Allen County-Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The proposed zoning fits within the goals, policies and recommendations of the Riverfront Development Implementation Framework Plan, adopted as an amendment to the Comprehensive Plan in May 2021. The Comprehensive Plan supports this rezoning through the following objectives:
LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
LU5. Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;
LU5.C Encourage development proposals that provide neighborhood commercial, civic, institutional and other similar uses, designed to allow adequate access for pedestrians and bicycles, in close proximity to housing.
LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.
LU6.C Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.
LU6.D Support carefully planned, coordinated, compatible mixed-use development.
LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The proposed zoning of Downtown Edge provides more appropriate uses for the area than the current Industrial zoning. A written commitment limiting height will mitigate substantially taller structures than the surrounding neighborhood.
3. Approval is consistent with the preservation of property values in the area. Approval of the proposed rezoning will allow both rehabilitation and new private investment that is consistent with the ongoing redevelopment of the riverfront area, fulfilling economic and land use development policies outlined in the comprehensive plan.
4. Approval is consistent with responsible development and growth principles based on existing uses, contextual design, and infrastructure in the area. Approval will further the goal of improved community well-being through coordinated and quality development, revitalization, and redevelopment.

These findings approved by the Fort Wayne Plan Commission on November 15th, 2021.
