City of Fort Wayne Common Council
DIGEST SHEET

Department of Planning Services

Title of Ordinance: Zoning Map Amendment
Case Number: REZ-2021-0057
Bill Number: Z-21-10-10
Council District: 3-Tom Didier

Introduction Date: October 26, 2021

Plan Commission
Public Hearing Date: November 8, 2021 (not heard by Council)

Next Council Action: Ordinance will return to Council after recommendation by the
Plan Commission

Synopsis of Ordinance: To rezone approximately 55 acres from AR/Low Intensity Residential to
R3/Multiple Family Residential.

Location: South side of the 2200 block West Dupont Road

Reason for Request: To allow a single and multiple family residential development.

Applicant: Next Chapter Holdings, LLC

Property Owner: Next Chapter Holdings, LLC

Related Petitions: Primary Development Plan, Dupont Meadows

Effect of Passage: Property will be rezoned to the R3/Multiple Family Residential zoning
district, which will allow the currently vacant parcel to be developed with
a mixture of housing products.

Effect of Non-Passage: The property will remain zoned AR, and may be used for a single family
house and/or low intensity agricultural practices.

Plan Commission Recommendation: DO PASS

A motion was made by Paul Sauerteig and seconded by Judi Wire to return the ordinance with a Do Pass recommendation to Common Council for their final decision.

7-0 MOTION PASSED

- Tom Freistroffer and Justin Shurley were absent.

Fact Sheet Prepared by:
Michelle B. Wood, Senior Land Use Planner
November 23, 2021

PROJECT SUMMARY

SITE HISTORY

- Site historically used for agricultural purposes
- Site stopped agricultural production between 1986 and 1995
- Adjacent land to the east rezoned in 2004 to accommodate Wal-Mart and Lima Commons
- No Board of Zoning Appeals requests on site

The petitioner is requesting Plan Commission approval to rezone the area in question from AR/Low-Intensity Residential to R3/Multiple Family residential. The purpose of the rezone is to permit construction of a multiple-family complex containing one and two-family homes in a traditional residential pattern of development. Historically, the site was undeveloped, with the eastern side of the parcel rezoned in 2004 for a shopping center. The north, south, and west retain a low-intensity or undeveloped landscape, but subdivisions like Rapids of Keefer Creek and Dau's Suburban Addition lie immediately beyond. The site contains a series of wetlands and the Beckett Run Natural Drain.

Similar zoning to R3 can be found nearby in places like Avalon at Northbrook and Villas at Northbrook (zoned RP/Planned Residential) as well as Cappelli Coves (zoned R3 but is a platted single-family subdivision). While the site will predominantly contain single and two-family residences and some on-site amenities (like a clubhouse, pool, etc.) the overall development pattern will resemble single and two-family development. R3 zoning permits this style of development on a single development parcel. A similar rezoning request was proposed in 2018 with the development of the Piper Trail subdivision, where single family style residences were constructed to make a multiple family complex.

The proposal can be supported by the following goals and policies of the Comprehensive Plan:

LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;

LU5.D Encourage development proposals that provide housing, designed to allow adequate pedestrian and bicycle access, in close proximity to existing neighborhood commercial, civic, institutional and other similar uses.

LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.

LU6.C Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.

LU6.D Support carefully planned, coordinated, compatible mixed-use development.

LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

PUBLIC HEARING SUMMARY:

Presenter: Pat Hess presented the proposal as outlined above. He stated that the rental houses will be market rate, with rents ranging from \$1400 to \$2000 per month. Each unit will have residential style lighting, HardiePlank siding, traditional shingled roof, and attached garage. A neighborhood meeting was held before the project was submitted.

Public Comments:

none

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

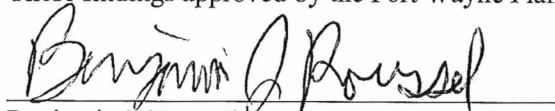

Rezoning Petition REZ-2021-0057

APPLICANT: Next Chapter Holdings LLC
REQUEST: To rezone the property from AR/Low Intensity Residential to R3/Multiple Family Residential
LOCATION: The site is located on the south side of the 2000 to 2300 blocks of West Dupont Road, west of Walmart (Section 3 of Washington Township).
LAND AREA: 54 acres
PRESENT ZONING: AR/Low Intensity Residential
PROPOSED ZONING: R3/Multiple Family Residential

The Plan Commission recommends that Rezoning Petition REZ-2021-0057, be returned to Council with a “Do Pass” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The site adjoins both Shopping Center and Agricultural zoning districts. A multiple family complex provides adequate connectivity and transition between these zoning districts. The proposed new urbanist style, single-family housing within the multiple family complex demonstrates a pioneering housing option for Fort Wayne. Touchpoints from the Comprehensive Plan include:
LU2.C Encourage rezoning petitions for properties that are adjacent to existing development.
LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
LU5. Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;
LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.
The site is within the Comprehensive Plan’s conceptual development map.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The site is at the intersection of myriad land uses. The character of current structures will be well accompanied by the proposed development.
3. Approval is consistent with the preservation of property values in the area. The proposed use of a multiple-family building should not depreciate existing property values.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Adequate review from city, county, and other agencies will assure minimal impact on existing infrastructure. The associated development demonstrates innovative land uses that follow national housing trends.

These findings approved by the Fort Wayne Plan Commission on November 15, 2021.
