PROJECT SUMMARY

SITE HISTORY:

- Historically, the site contained a single-family dwelling along Lake Avenue and a gas station at the corner of Lake Avenue and Anthony Boulevard.
- In the 1980's, the gas station expanded and built into where the single-family dwelling stood.
- A zoning ordinance amendment limited gas stations to a special use in the C2/Limited Commercial zoning district. The amendment became effective on April 7, 2014.
- City Council proposed and approved a zoning ordinance amendment to remove gas stations as a special use in the C2 district, which became effective on April 22, 2019.

STAFF DISCUSSION:

The applicant, Onkar Oil, LLC, is seeking to rezone this gas station site from C2/Limited Commercial to C3/General Commercial. The site is at the northwest corner of Lake Avenue and North Anthony Boulevard. The site contains a gas station canopy with a convenience kiosk underneath. In addition, a dumpster enclosure and restroom building are at the far northwest corner of the site. The site is surrounded by historic designation on all sides: the Forest Park Boulevard Historic District to the east, the North Anthony Historic District to the north, and the Fort Wayne Parks and Boulevards Historic Districts on the west and south designated for Anthony Boulevard and for Lake Avenue, respectively. Beyond the designations are commercial storefronts that have historic setbacks, a dry cleaner diagonal from the site, and Lakeside Park within walking proximity to the site. A 6-foot privacy fence separates the gas station parcel from the residential districts to the west and the north.

Given the freshness of the initiative to reduce the number of zoning districts where a gas station is permitted, staff would only recommend approval if a voluntary written commitment is submitted. Until the Zoning Ordinance Amendment in 2014, a gas station was a permitted use in the C2 zoning district.

Today, gas stations in the C2 district that existed prior to 2014 became nonconforming. The petitioner seeks the allowance of the existing gas station, and the ability to maintain, expand and improve as allowed for a permitted use. Along with the rezoning request, the petitioner has agreed to submit a voluntary Written Commitment governing uses on the property. If approved, all but four C3 /General Commercial uses would be prohibited, as recommended by staff. Those new C3 uses proposed to be permitted are:

- (1) Automobile car wash
- (2) Gas station
- (3) Propane/bottled gas sales and service as an accessory to a gas station or convenience store
- (4) Truck fueling station

The Comprehensive Plan encourages development that will not adversely affect the current conditions of an area or the character of the current structures in the area. This proposal does not include any request to change or increase the intensity of the existing use. Staff is not opposed to bringing the existing use into compliance with the ordinance, with the written commitment.

An additional benefit of rezoning to a C3 zoning district is that this zoning district has greater setbacks for development adjacent to residential zoning districts. For instance, the rear yard setback for a building adjacent to a residential district in a C3 district is 40', while the same setback in a C2 district is 25'. If a gas station were to expand in the future, the applicant will either need to adhere to the larger setback or file a petition with either the Plan Commission or Board of Zoning Appeals.

PUBLIC HEARING SUMMARY:

Presenter: Matt Kelty presented the proposal as outlined above.

Public Comments:

Four neighbors spoke in opposition.

- Tom Overkill, Forest Park Association
- Kim Anderson, owner of 1514 North Anthony
- Joe Giant, VP of Kensington Park Association
- Sid Shipley, 1506 Forest Park Boulevard

The concerns consisted of compatibility, debris from patrons, site maintenance, lighting, hours of operation, parking, expansions, and language within the Written Commitment.

Post-Hearing: The applicants met with Plan Commission Staff and drafted a revised Written Commitment based on comments made by remonstrators at the public hearing. A truck fueling station and car wash were removed from the permitted uses.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

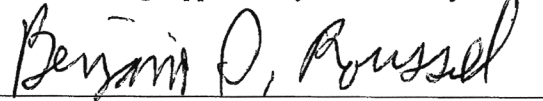

Rezoning Petition REZ-2022-0003

APPLICANT: Onkar Oil, LLC
REQUEST: To rezone property from C2/Limited Commercial to C3/General Commercial to bring the existing gas station use in conformance with the Zoning Ordinance.
LOCATION: The site is located at the northwest corner of the intersection of North Anthony Boulevard and Lake Avenue. The address of the subject property is 1501 North Anthony Boulevard (Section 36 of Washington Township).
LAND AREA: Approximately 0.44 acres
PRESENT ZONING: C2/Limited Commercial
PROPOSED ZONING: C3/General Commercial

The Plan Commission recommends that Rezoning Petition REZ-2022-0003, with a Written Commitment, be returned to Council with a "Do Pass" recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The existing gas station has been established since the 1980's. The purpose of the rezoning is to allow an existing use to comply with the zoning ordinance.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The use on the property is existing and is not proposed to change. A proposed Written Commitment prohibiting all but existing C3 uses will protect surrounding property owners from new intensive or incompatible uses.
3. Approval is consistent with the preservation of property values in the area. This proposal does not increase the intensity of the existing use, and allows for the property to be maintained, expanded and/or improved. Further investment when desired or necessary will fall within the constraints of the General Commercial (C3) zoning district.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area.

These findings approved by the Fort Wayne Plan Commission on February 21, 2022.
