## PROJECT SUMMARY

### SITE HISTORY:

- Two structures (a convenience store and a gas station canopy) were built around 1970.
- The site also consists of a foursquare home built around 1930.
- Until 2014, gas stations were permitted in the CM2 zoning district, which translates to today's C2/Limited Commercial zoning district.
- A zoning ordinance amendment limited gas stations to a special use in the C2/Limited Commercial zoning district. The amendment became effective on April 7, 2014.
- City Council proposed and approved a zoning ordinance amendment to remove gas stations as a special use in the C2 district, which became effective on April 22, 2019.

### STAFF DISCUSSION:

The applicant, Lassos Bros. Oil, seeks to rezone their State and Clinton store and one additional parcel from C2/Limited Commercial and R1/Single-Family Residential to C3/Limited Commercial. Historically, the site was constructed with predominance of single-family homes in the 1910s to 1930s but have been replaced by new or converted commercial structures over time. Today, this stretch of North Clinton Street has a blend of commercial and residential structures. This specific gas station was developed in the early 1970's. Recently, the Pufferbelly Trail was installed two parcels south and can be accessed from a spur just south of the site. In addition, the City of Fort Wayne invested in the realignment of State Boulevard, which resulted in a large common area west of the site. The City of Fort Wayne beautified the site with trees and plantings, and placards note that the area can be used for water detention if needed. Of this month's petitions, this is the only site that contains more than one parcel. The applicant explained that this could be for future expansion relative to access. This can be confirmed by the applicant. No plans were provided to the Department of Planning Services, but expansions will be reviewed through a development plan or a site routing process in the future.

Given the freshness of the initiative to reduce the number of zoning districts where a gas station is permitted, staff would only recommend approval if a voluntary written commitment is submitted. Until the Zoning Ordinance Amendment in 2014, a gas station was a permitted use in the C2 zoning district.

Today, gas stations in the C2 district that existed prior to 2014 became nonconforming. The petitioner seeks the allowance of the existing gas station, and the ability to maintain, expand and improve as allowed for a permitted use. Along with the rezoning request, the petitioner has submitted a voluntary Written Commitment governing uses on the property. If approved, all but four C3 /General Commercial uses would be prohibited, as recommended by staff. Those new C3 uses proposed to be permitted are:

- (1) Automobile car wash
- (2) Gas station
- (3) Propane/bottled gas sales and service as an accessory to a gas station or convenience store
- (4) Truck fueling station

The Comprehensive Plan encourages development that will not adversely affect the current conditions of an area or the character of the current structures in the area. This proposal does not include any request to change or increase the intensity of the existing use. Staff is not opposed to bringing the existing use into compliance with the ordinance, with the written commitment. The applicant also reached out to neighborhood presidents, the District Councilman and Community Development staff before filing the petition. Staff has not received any written correspondence.

An additional benefit of rezoning to a C3 zoning district is that this zoning district has greater setbacks for development adjacent to residential zoning districts. For instance, the rear yard setback for a building adjacent to a residential district in a C3 district is 40', while the same setback in a C2 district is 25'. If a gas station

were to expand in the future, the applicant will either need to adhere to the larger setback or file a petition with either the Plan Commission or Board of Zoning Appeals.

**PUBLIC HEARING SUMMARY:**

Presenter: Sam Schenkel presented the proposal as outlined above. Mr. Schenkel stated that he contacted his district Councilman, staff members with Community Development, and presidents from area neighborhood associations.

Public Comments:

No one spoke in opposition.

Post-Hearing: The applicants met Plan Commission Staff and drafted a revised Written Commitment. A carwash and truck fueling station were removed from the permitted uses.

## FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

### Rezoning Petition REZ-2022-0007

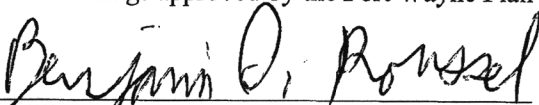

APPLICANT: Lassus Bros. Oil, Inc.  
REQUEST: To rezone property from C2/Limited Commercial to C3/General Commercial to bring the existing gas station use in conformance with the Zoning Ordinance and to allow for future expansion.  
LOCATION: The addresses of the subject properties are 2227 North Clinton Street and 2239 North Clinton Street (Section 35 of Washington Township).  
LAND AREA: Approximately 0.6 acres  
PRESENT ZONING: C2/Limited Commercial  
PROPOSED ZONING: C3/General Commercial

---

**The Plan Commission recommends that Rezoning Petition REZ-2022-0007, with a Written Commitment, be returned to Council with a “Do Pass” recommendation after considering the following:**

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The site has accommodated a Lassus station for decades, and the surrounding conditions have changed to predominantly commercial and city-owned properties for floodplain management and traffic control. The purpose of the rezoning is to allow an existing use to comply with the zoning ordinance.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The use on the property is existing and is not proposed to change. A proposed Written Commitment prohibiting all but existing C3 uses will protect surrounding property owners from new intensive or incompatible uses. Any planned expansion will consider C3 development standards and may mitigate traffic hazards.
3. Approval is consistent with the preservation of property values in the area. This proposal does not increase the intensity of the existing use, and allows for the property to be maintained, expanded and/or improved. Further investment when desired or necessary will fall within the constraints of the General Commercial (C3) zoning district.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area.

These findings approved by the Fort Wayne Plan Commission on February 21, 2022.
