City of Fort Wayne Common Council
DIGEST SHEET

Department of Planning Services

Title of Ordinance: Zoning Map Amendment
Case Number: REZ-2022-0041
Bill Number: Z-22-07-23
Council District: 4-Jason Arp

Introduction Date: July 26, 2022

Plan Commission
Public Hearing Date: August 8, 2022 (not heard by Council)

Next Council Action: Ordinance will return to Council after recommendation by the
Plan Commission

Synopsis of Ordinance: To rezone approximately 5.74 acres from AR/Low Intensity Residential
to BTI/Business, Technology and Industrial Park.

Location: 10728 W US 24 and 7021 Homestead Road

Reason for Request: To allow for the construction of seven mini storage units.

Applicant: 8018 LLC

Property Owner: Mark Beckstedt

Related Petitions: Primary Development Plan, Southwest Storage

Effect of Passage: Property will be rezoned to the BTI/Business, Technology and Industrial
Park district, which will allow for mini storage, as well as other permitted
low intensity industrial development.

Effect of Non-Passage: The property will remain zoned AR/Low Intensity Residential, which
would not permit any commercial or industrial uses, but would allow the
continuation of single family homes and low-intensity agricultural uses.

PROJECT SUMMARY

The site is currently 2 separate parcels. Both historically have been residential since the 1970's and prior to that both were agricultural fields.

The petitioner requests a rezoning from AR/Low Intensity Residential to BTI/Business Technology and Industrial Park, to permit a self-storage development. The subject property is currently two separate parcels that have been zoned residentially for decades and utilized as single-family residential properties. The surrounding properties have a mixture of uses. The properties to the north and east are single family residential uses. The property to the south consists of US 24, a commercial office condo, and a multiple family complex proposal that has been currently tabled. The properties on the west side of Homestead Road consists of industrial and commercial uses.

The applicant has also submitted a written commitment that limits approved uses on the property to only a self-storage development. The written commitment also proposes an increase in landscaping features along the north side nearest the single-family subdivision. Finally, the commitment also proposes a height restriction to light poles to 20 feet with sharp cut off fixtures to minimize light pollution. Staff supports the written commitment as proposed.

The applicant is not proposing to connect to City Water or Aqua Indiana Sewer. The applicant explained in an email:

“The city does have a water main along the Homestead Road frontage on the west side of Homestead. Aqua Indiana does have pressure sewer line along the north side of US 24. There is a small lift station on the SW corner of our property. It may be debatable with Aqua whether that is theirs or the condo association's, but I do not believe Aqua would allow additional users to connect to it in either case. But they did allow that and others east of us to have private grinder pump stations connected to their pressure force main.”

With a sufficient Written Commitment, the proposal could be supported by the following goals and polices of the Comprehensive Plan:

- LU3.** Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
- LU5.** Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;
- LU6.** Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.
- LU6.C** Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.
- LU6.D** Support carefully planned, coordinated, compatible mixed-use development.
- LU8.** Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

The applicant is proposing 7 storage units across the 5.74-acre parcel. The property has access from both Homestead Road and US 24. The total square footage of the development is 72,060 square feet. Three of the seven buildings are proposed to have heated storage. There is no office proposed for this development. Parking for a self-storage unit development is calculated by the square footage of the office. Since no office is being proposed no parking is required. The plan proposes approximately 60 parking spaces adjacent to the heated storage buildings.

Landscaping for this development consists of a mixture of shrubs, evergreen trees, and privacy fencing. The applicant stated in the submitted documents that the neighboring residents to the north prefer a replacement of

the shrub component of the code with a second row of evergreen trees. The applicant has included the proposed landscape plan within the draft written commitment. The applicant has not requested any development standard waivers.

PUBLIC HEARING SUMMARY:

Presenter: Michael Hoffman, representing the applicant, presented the project to the Plan Commission, as outlined above.

Public Hearing Comments:

Steve Johnson, President of Forest Ridge – opposed to project. Currently they look over an empty field. 17 additional cars a day is still added traffic. Concerned about maintenance of the site and the commercial cut onto US 24.

Fred Warner, speaking for his brother who lives east of the site – Concerns include: whether traffic flow from one entrance to the other; whether there is 24-hour access; stormwater maintenance; and traffic at the intersection.

Ethan Yoder, Braeburn Court – Concerns include: precedent of BTI zoning; incompatible use; future IU Health traffic using Homestead; architectural control; excessive parking; inexperienced trailer drivers; INDOT review.

Ronald Cousino, Uncas Trail – Not totally opposed to the project but concerned about neighborhood safety.

Closing Comments:

A keycard will be required to enter the non-climate controlled area, and each of the climate controlled buildings. There will be daily in-person monitoring of the site. The commercial cut onto US 24 is already installed and designed by INDOT. BTI zoning is more palatable than C3, as it allows no outdoor uses and the Written Commitment will restrict all other industrial uses. After the hearing, the applicant supplied proof that trailers can turn around in the lots, and agreed to add more brick wherever facades are visible outside of the development.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

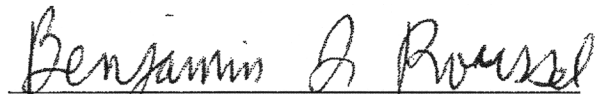

Rezoning Petition REZ-2022-0041

PROPOSAL: Rezoning Petition REZ-2022-0041– Southwest Storage
APPLICANT: Southwest Storage
REQUEST: To rezone property from AR/Low intensity Residential to BTI/Business, Technology, and Industrial Park.
LOCATION: 10728 US 24 West and 7021 Homestead Road, 500 feet east from the intersection of US 24 West and Homestead Road (Section 27 of Aboite Township)
LAND AREA: 5.74 acres
PRESENT ZONING: AR/Low Intensity Residential
PROPOSED ZONING: BTI/Business, Technology

The Plan Commission recommends that Rezoning Petition REZ-2022-0041 be returned to Council with a “Do Pass” recommendation, with a Written Commitment, after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The site is near commercial and industrial development and will provide infill development using existing infrastructure.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan and architectural review from the Plan Commission and staff will ensure a compatible development that complements the neighborhood.
3. Approval is consistent with the preservation of property values in the area. This proposal will allow reinvestment into the property.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments indicates that the site can be developed for the proposed uses and adequate infrastructure is available to service the site.

These findings approved by the Fort Wayne Plan Commission on August 15, 2022.
