PROJECT SUMMARY

- The site is partially developed with gas pumps/canopy and convenience store. The northern portion of the site is a former Dairy Queen restaurant.
- It appears that the site has been used commercially since the 1970's.

The petitioner requests a rezoning from I1/Limited Industrial to C3/General Commercial with a written commitment to allow the existing use of the property to comply with the current zoning ordinance, and to allow for future improvements to the site. The existing Lassus Handy Dandy gas station and convenience store are located at 411 East Paulding Road, at the intersection of Paulding and US 27. The former Dairy Queen, located on the northern portion of the project site, is situated between the convenience store and the Southview Avenue and east of Avondale Drive. Access to Avondale Drive at Paulding has been closed by the City of Fort Wayne.

Until the Zoning Ordinance Amendment in 2014, a gas station was a permitted use in the I1/Limited Industrial zoning district. The petitioner seeks the allowance of the existing gas station, and the ability to maintain, expand and improve as allowed for a permitted use. The petition includes rezoning both the gas station and Dairy Queen property. Along with the rezoning request, the petitioner has submitted a voluntary Written Commitment governing uses on the property. If approved, all but four C3 /General Commercial uses will be **prohibited**. Those new C3 uses proposed to be **permitted** are:

- (1) Automobile car wash
- (2) Gas station
- (3) Propane/bottled gas sales and service as an accessory to a gas station or convenience store
- (4) Truck fueling station

The current Comprehensive Plan encourages development that will not adversely affect the current conditions of an area or the character of the current structures in the area. Records show that this area has been used commercially or industrially since the 1970's, and commercial, industrial and institutional uses are predominate east of US 27. Bishop Luers school is located west of US 27, as are residential neighborhoods. The northeast quadrant of the Paulding and US 27 intersection is subject of discussion in the Southeast Strategy Update, which calls for this general area to be considered for rezoning to districts that match the current uses, to help stabilize the area and to halt encroachment of intensive uses that may not be compatible with surrounding land uses. While this proposal does not include any request to change or increase the intensity of the existing use, the rezoning of the Dairy Queen property would permit future improvements and expansion of the convenience store onto that property. The Southeast plan calls for the Dairy Queen property to rezoned to C2/Limited Commercial, as this district would match the most recent use. However, if use of a portion of this property will allow for the existing gas station to be improved to better serve the neighborhood and provide investment, then this rezoning proposal, with a written commitment, could be considered in compliance with the plan. The written commitment will prohibit other C3 uses, and encourage C2 uses. Land uses north of the project site are varied commercial and industrial. Staff is generally not opposed to bringing the existing use into compliance with the ordinance with the proposed written commitment. The restaurant property has been vacant since the closure of Avondale Drive, as access is now limited to Southview Avenue, or through the gas station site. Staff would be supportive of the overall request with the C3 use prohibitions. The written commitment will also require extra landscaping or screening when the north property redevelops, at the Plan Commission's request.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

Rezoning Petition REZ-2022-0068

APPLICANT: Solar Petroleum, LLC
REQUEST: Rezone property from I1/Limited Industrial to C3/General Commercial to allow conforming status for an existing gas station/Convenience store and to rezone property to the north.
LOCATION: 411 East Paulding Road, northeast corner of its intersection with Lafayette Street (Section 24 of Wayne Township)
LAND AREA: 1.047 acres
PRESENT ZONING: I1/Limited Industrial
PROPOSED ZONING: C3/General Commercial

The Plan Commission recommends that Rezoning Petition REZ-2022-0068 be returned to Council, with a “Do Pass with a written commitment” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The existing gas station and convenience store have served this neighborhood for decades. The area is heavily developed with commercial and industrial uses. The purpose of the rezoning is to allow an existing use to comply with the zoning ordinance and allow for improvements.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The use on the property is existing and is not proposed to change. A proposed written commitment prohibiting all but existing C3 uses will protect surrounding property owners from new intensive or incompatible uses.
3. Approval is consistent with the preservation of property values in the area. This proposal does not increase the intensity of the existing use, and allows for the property to be maintained, expanded and/or improved, allowing for investment when desired or necessary.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area.
5. Plan Commission requests the following language to be added to the written commitment:
When the north parcel (412 Southview Avenue), is redeveloped or utilized in part for improvements to the gas station parcel (411 East Paulding), P-2 screening and buffering, or a solid board fence will be installed on the east property line, adjacent to the single family house at 420 Southview Avenue. If the property ceases to be used residentially, landscaping will be required per the zoning ordinance standards for the district.

These findings approved by the Fort Wayne Plan Commission on January 23, 2023.
