FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

Rezoning Petition REZ-2023-0002

APPLICANT: Proactive Rezoning Work Group: A Cooperation between City of Fort Wayne and the Allen County Department of Planning Services

REQUEST: To rezone property from C3 General Commercial and R2/Two Family Residential zoning districts to UC/Urban Corridor in accordance with the adopted Southeast Strategy plan and the current built environment

LOCATION: In general, the site stretches along the south side of the 700 block of East Pontiac Street (Hanna to Weisser Park Ave)

LAND AREA: 2.37 acres

PRESENT ZONING: C3 General Commercial and R2/Two Family Residential

PROPOSED ZONING: UC/Urban Corridor

The Plan Commission recommends that Rezoning Petition REZ-2023-0002 be returned to Council, with a “Do Pass” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The proposed zoning is supported by the goals, policies and recommendations found within the Land Use and Housing chapters of the Fort Wayne- Allen County Comprehensive Plan – Plan it Allen. Furthermore, the rezoning is a recommendation of the Southeast Strategy Update Plan which was adopted as an amendment to the Comprehensive Plan in 2021.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The Zoning Ordinance allows existing legal nonconforming uses to continue to exist and expand, with certain limitations.
3. Approval is consistent with the preservation of property values in the area. Approval of the proposed rezoning will allow new public and private investment that is consistent with the ongoing redevelopment within the Pontiac Corridor, fulfilling economic and land use development policies outlined in the comprehensive plan and the Southeast Strategy Update.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Most of the uses within the rezoning area are more consistent with the proposed classification than the current general commercial classification they fall under. Approval will also compliment adjacent uses and support future growth and development. New development will be built in a form which will blend with the existing urban development patterns and historical flavor, using alley access, smaller setbacks, and mixed uses including residential use of upper building floors.

These findings approved by the Fort Wayne Plan Commission on March 20, 2023.
