When making recommendations on rezoning requests, the Plan Commission shall pay reasonable regard to the following items. Please describe how this petition satisfies the following:

(1) The Comprehensive Plan;

The instant proposal is consistent with the Comprehensive Plan in the following particulars:

- The Comprehensive Plan states that “[u]nchecked growth, or sprawl, stresses existing infrastructure, requires expensive service extensions, increases maintenance costs, encroaches on valuable agricultural areas, and disturbs the rural character that helps define the County. In this case, the Applicant is proposing to utilize an existing structure, thereby avoiding unchecked growth and sprawl into more rural areas of the County.
- It satisfies the mandate for new growth and development to occur in areas described as “Complete Neighborhoods”, where infrastructure needed for development is already in place. As depicted in the Plan’s Complete Neighborhood Index, the subject real estate is situated in an area that is rich in amenities, with transit routes, places of work, and various medical and cultural facilities in close proximity.
- The subject real estate is situated in an area that the Comprehensive Plan identifies as an Urban Infill Area, meaning that it benefits from existing infrastructure and adjacency to other community amenities.
- The instant proposal satisfies the Plan’s mandate that “[n]onresidential development which is adjacent to residential neighborhoods should be limited to lower intensity neighborhood commercial uses.” In this case, Parkwood Place is located to the northeast and Kirkwood Park is located in close proximity to the southwest of the subject real estate. The proposed rezoning to a C-1 zoning designation brings the subject real estate’s zoning into alignment with its historical uses, while doing so in a manner that is respectful of the neighborhoods in close proximity.
- The Generalized Future Land Use maps included within the Comprehensive Plan identify the subject real estate as being located in an area slated for business and office park uses, which according to the Comprehensive Plan includes “a mix of professional office and personal service uses; medical, technology, and research facilities...” The existing professional office and personal service uses are very much compatible with the business and office park designation found in the Comprehensive Plan.

(2) The most desirable use for which the land in the district is adapted:

- The most desirable use of land within the district continues to be professional office and personal service uses. If approved, the Applicant intends to expand his existing dental practice to the subject real estate. In addition, the Applicant is not requesting to

change the nature of the existing uses; instead, the Applicant is proposing to bring the zoning into alignment with the historic uses of the property for professional office and personal service uses, which date back to the late 1970s or early 1980s.

(3) The conservation of property values throughout the jurisdiction:

- The instant proposal will not have any adverse impact on property values in the area, as any impact from professional office and personal service uses was realized when the existing building improvements were constructed in the late 1970s. In addition, the Applicant is not proposing any significant renovation to the exterior of the building, thereby preserving the exterior appearance that the neighbors have become familiar with over the past 40 years.

(4) Responsible growth and development:

- The instant proposal is consistent with the mandate for responsible growth and development in that (a) all utility and roadway infrastructure is already present at or near the subject real estate; (b) the proposal is consistent with the Comprehensive Plan's mandate for urban infill development; and (c) the proposal seeks to bring the longstanding professional office use into alignment with the property's zoning.

SURVEYOR'S REPORT

Pursuant to the Indiana Administrative Code Title 865, Article 1.1, Chapter 12 regarding uncertainties as to the location of the property corners and boundary lines found or set by the preceding survey, and by discrepancies and/or ambiguities in the reference monuments, title documents, and evidence of occupation and possession, we hereby submit the following opinions and observations:

1. The theoretical uncertainty of the corners established by this survey due to random errors in measuring the perimeter of said tract falls within the criterion of a Class "B" Survey (0.25 feet) as defined by the aforesaid Indiana Administrative Code.

2. UNCERTAINTY IN THE REFERENCE MONUMENTS:

East corners: 0.75 feet East/West

3. UNCERTAINTY DUE TO POSSIBLE TITLE AMBIGUITIES:

None apparent. No title commitment has been reviewed for this report.

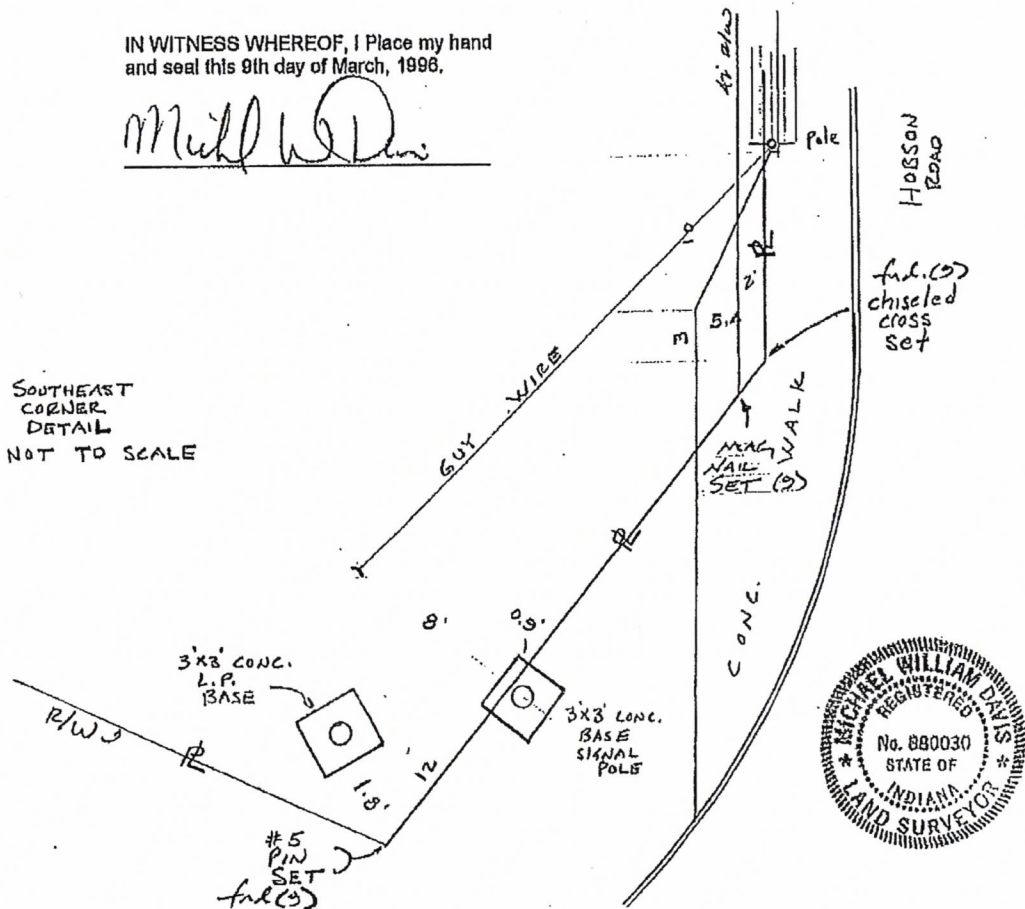

4. UNCERTAINTIES IN LINES OF OCCUPATION AND/OR POSSESSION:

Overhead power lines affixed to crossarms on poles within the right of way of the Hobson Road, as well as a riser to a pole encroaches onto subject property along the West right of way of said Hobson Road by approximately 2 feet. Also, a concrete sidewalk, light pole and signal pole encroach as shown in detail below.

NOTES: This is a recertification of a survey performed by this office on December 27, 1977. In addition, this office has also surveyed both the Northerly adjoiner and the Westerly adjoiner. The corners established for this survey are all in accordance with prior surveys, with the exception of the Westerly right of way line of the Hobson Road, which appears to have shifted 0.75 feet to the East since reconstruction of the roadway from the 1977 position.

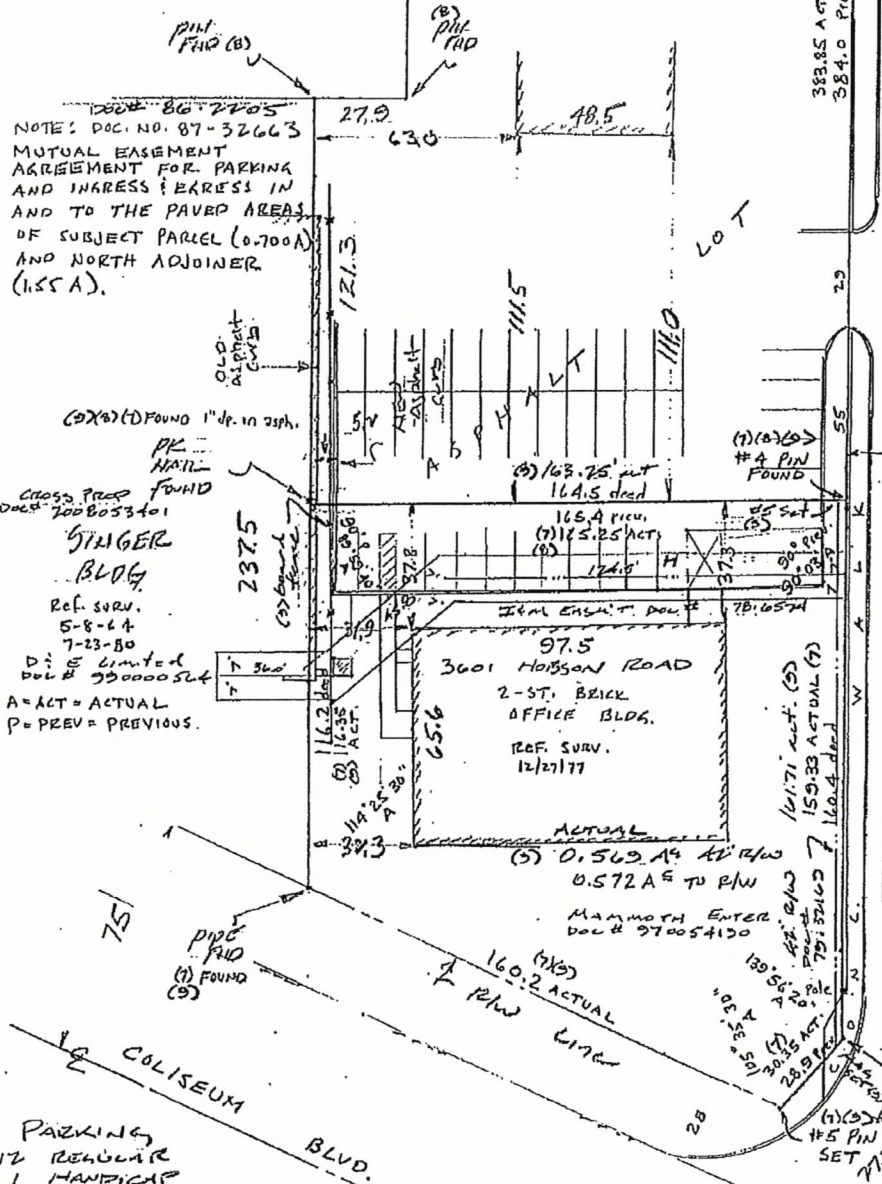

IN WITNESS WHEREOF, I Place my hand and seal this 9th day of March, 1998.

SURVEYOR REPORT

Pursuant to the Indiana Administrative Code Title 865 Article 1.1, Chapter 12 regarding uncertainties as to the location of the property corners and boundary lines found or set by the preceding survey, and by discrepancies and/or ambiguities in the reference monuments, title documents, and evidence of occupation and possession, we hereby submit the following opinions and observations.

1. The theoretical uncertainty of the corners established by this survey due to random errors in measuring the perimeter of said tract falls within the criterion of a Urban Survey as defined by the aforesaid Indiana Administrative Code.

2. UNCERTAINTY IN THE REFERENCE MONUMENTS:

All corners were found in accordance with prior surveys by this office in 1977 and 1998.

As reported in 1998, the Westerly 40 foot right of way of the Hobson Road appears to have been shifted 0.75 feet East since reconstruction of the roadway from the 1977 position. An additional 2 feet of right of way (42 foot right of way) was taken by Document No. 79-32169 and monumented this survey.

3. UNCERTAINTY DUE TO POSSIBLE TITLE AMBIGUITIES:

Title Commitment reviewed for this report was prepared by FIRST AMERICAN TITLE INSURANCE COMPANY as Commitment No.: 4035-65802 and issued by Metropolitan Title of Indiana, LLC on April 15, 2014 at 8:00 AM and printed April 16, 2014.

Legal Description for the Subject Tract in the commitment is as found in Document No. 970054190.

In regard to Schedule B - Section II:

- Item(11): Easement for electric as shown on Sheet 4 of 5.
- Item (12): Mutual Easement Agreement as noted on Sheet 4 of 5.
- Item (13): Mutual Easement Agreement as noted on Sheet 4 of 5.
- Item (14): 42 foot right of way as shown on Sheets 3 and 4 of 5.

4. UNCERTAINTIES IN LINES OF OCCUPATION AND/OR POSSESSION:

North line through a parking lot with no visible line of possession. West line approximate a parking lot as shown on the Westerly adjoiner, asphalt encroaches approximately 1 foot as shown since 1977. Southerly lines as shown on Sheet 3. East line by the Hobson Road.

NOTES: The Subject Tract is one part of an overall development by BROTHERHOOD MUTUAL LIFE INSURANCE COMPANY that this office has been involved with since 1984. This is a recertification to ALTA/ACSM requirements of the 1977 survey by Carl A. Hofer and the 1998 survey by Michael W. Davis.

To: Mammoth Enterprises, Inc.; Stephen F. Stephens; First American Title Insurance Company; Metropolitan Title of Indiana, LLC

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 8 and 9 of Table A thereof. The field work was completed on April 24, 2014.
