# Department of Planning Services Rezoning Questionnaire

**When making recommendations on rezoning requests, the Plan Commission shall pay reasonable regard to the following items. Please describe how this petition satisfies the following:**

(1) The Comprehensive Plan;

According to the Comprehensive Plan, the 6901 Coldwater Road property falls within an "Urban Infill Area" (see Comprehensive Plan, pg 55). Infill development is said to be "desirable" because it strengthens established neighborhoods and leverages existing infrastructure, and bolsters activity in established communities and neighborhoods (see Comprehensive Plan, pgs 54-55). In pursuit of this goal, the Comprehensive Plan encourages "[e]xplor[ing] new zoning classifications" (see Comprehensive Plan, pgs 60). Although the Comprehensive Plan suggests that that this particular property was anticipated to have a "Traditional Neighborhood" use in the future (see Comprehensive Plan, pgs 68), it is believed that the proposed rezoning from C1 to C2 is not necessarily incompatible with the Comprehensive Plan, particularly in light of the desirability of the infill development (see Comprehensive Plan, pgs 54-55), and the various anticipated future land uses for the surrounding properties, which include "Institutional" to the north, "Business and Office Park" to the south, and "Airport" to the west (see Comprehensive Plan, pgs 68).

(2) Current conditions and the character of current structures and uses in the district;

The property has been vacant and undeveloped for many years, and is bordered on the south and west by residential properties and on the east, across Coldwater Road, by largely undeveloped land with a few residences located within it. However, the property is also adjacent to Northrop High School (to the north), and is in close proximity to various commercial properties (C2 property less than 1,500 ft to the north and C2 property less than 1,000 ft to the south) and major office developments to the south. The property is also in close proximity to the Smith Field Airport (less than 2,000 ft to the west).

(3) The most desirable use for which the land in the district is adapted;

The property is currently zoned C1, and appears to be well-adapted for commercial use. It is believed that the intended use, upon approval of the requested rezoning to C2, would also qualify as a highly desirable use for the property, as the intended development would involve a high-end restaurant/retail use, which would serve needs of the community and would include enhanced architecture and landscaping in attempt to promote compatibility with the surrounding residential and school properties.

(4) The conservation of property values throughout the jurisdiction;

The intended development would involve a high-end restaurant/retail use, and would include enhanced architecture and landscaping. It is believed that the effect, if any, of this development on the values of the surrounding properties would be a positive one. It is not believed that this development would have any negative impact on the values of the surrounding properties, or of any other properties throughout the jurisdiction. We've communicated with the superintendent and other senior officials at Fort Wayne Community Schools, who have expressed their support for the project.

(5) Responsible development and growth.

The subject property is located within a largely-developed area that has well established and adequate infrastructure for the development of this site. To the extent that additional utilities, street improvements, and other infrastructure are necessary, Developer will provide for the same. It is believed that this property can lend itself to the sort of upscale commercial development that is desirable, that will enhance the area and community in general, and that may be made possible upon the approval of the requested rezoning from C1 to C2.

2. Permitted Uses. Any use otherwise permitted in a C2 zoning district pursuant to the Ordinance which is not expressly prohibited pursuant to Section 1 above shall be a permitted use upon the Real Estate.
3. Conditions of Approval. C2 primary building setbacks as set forth by the Ordinance shall govern all development on the Real Estate, including parking areas.
4. Permits. No permits shall be issued under the zoning ordinance by the Zoning Administrator, or any successor agency having zoning jurisdiction over the Real Estate, until this Commitment is recorded with the Allen County Recorder. The Declarant and/or Owner shall deliver to the Zoning Administrator and the Plan Commission an executed and recorded copy of this Commitment.
5. Binding Effect, Modification, and Termination. This Commitment shall run with the Real Estate, and shall be binding upon the Declarant and Owner and each subsequent owner of the Real Estate and each other person acquiring an interest in the Real Estate, unless this Commitment is modified or terminated. The recitals are incorporated herein by reference and are expressly made a part of this Commitment. Further, pursuant to I.C. §36-7-4-1015(b)(4), this Commitment shall automatically terminate if: (i) the zoning district or classification applicable to the Real Estate is changed; or (ii) if the land use to which this Commitment relates is changed.
6. Recording. Declarant shall, at Declarant's expense, record this Commitment with the Allen County Recorder and shall provide two (2) copies of the recorded Commitment to the Zoning Administrator.
7. Enforcement. Any violation of this Commitment shall be deemed a violation of the zoning ordinance in effect at the time of the violation; provided, however, that nothing in this Commitment shall be construed as giving any person the right to compel enforcement of it by the Plan Commission or any enforcement official designated in the zoning ordinance, or any successor agency having zoning jurisdiction over the Real Estate. Pursuant to I.C. §36-7-4-1015, the Plan Commission or any enforcement official designated in the zoning ordinance, shall be entitled to all legal and equitable remedies available, including specific performance and injunctive relief, for any violation of this Commitment. The enforcement rights of the Plan Commission or any enforcement official designated in the zoning ordinance are cumulative, not exclusive. This Commitment may be enforced by any successor commission or enforcement official having zoning jurisdiction over the Real Estate.
8. Authority to Sign. The person(s) signing this Commitment in a representative capacity on behalf of Declarant and Owner warrants and represents that: (a) the person has the actual authority and power to so sign, and to bind the respective entity to

## PROJECT SUMMARY

The applicant is requesting to rezone the parcel from C1/Professional Office and Personal Services to C2/Limited Commercial and to approve a primary development plan for a multi-lot commercial development. The application states that the desire is to construct a high-end retail and restaurant development with three outlots for future retail development. The site is located just north of the reconstructed Ludwig Road area, and immediately south and east of the newly constructed Oakbrook Parkway and signalized intersection at Coldwater, which serves Northrop High School and this parcel.

The submitted development plan consists of three multitenant buildings and three commercial outlots along Coldwater Road, with a centralized parking lot. Underground stormwater detention is shown in the southwest corner of the site, underneath a parking area. A “splashpad” area is shown at the northwest corner of the site. Vehicular access is proposed from the north leg and the west leg of Oakbrook Parkway. No access is proposed from Coldwater Road. It appears the plan respects all of the zoning ordinance development design standards, as well as the Airport Overlay height restrictions. The maximum height proposed is 28 feet-4 inches, while the overlay district would allow up to 40 feet. There are utility and surface drainage easements shown along each property boundary, so the applicant should confirm that landscape standards can be met within these easements, most particularly along the west and south boundaries where the rear of the buildings will be facing the adjacent residential lots. There is a relatively thick stand of plant material along the rear boundaries of the residential parcels now. The rezoning questionnaire mentioned enhanced landscaping and architecture; the applicant explained how these offerings will aid in compatibility with the neighborhood. Conceptual elevations are included with this staff report.

This proposal comes with a voluntary written commitment to restrict 119 of the 269 uses in the C2/Limited Commercial district.

### **COMPREHENSIVE PLAN REVIEW**

#### **Future Growth and Development Map, Goals, and Strategies**

- The project site is located within the Urban Infill Area. Development in urban infill areas should be focused on vacant lots within neighborhoods and commercial or industrial areas already served by infrastructure.
- The following Goal would be applicable and supportive of this request:  
**LUD1** – Encourage compatible infill development and redevelopment in the Urban Infill and Priority Investment Areas

#### **Generalized Future Land Use Map**

- The project site is located within the Traditional Neighborhood generalized land use category, despite being zoned for commercial uses.
- Adjacent properties are categorized as Traditional Neighborhood, Institutional and Business and Office Park.

#### **Overall Land Use Related Action Steps**

- **LUD Goal 1** Encourage compatible infill development and redevelopment in the Urban Infill and Priority Investment Areas.

#### **Compatibility Matrix**

- The proposed uses are permitted in C2/Limited Commercial Industrial zoning district which is considered compatible with Traditional Neighborhood.

**Other Applicable Plans:** None

**PUBLIC HEARING SUMMARY:**

Presenter: Mike Hoffman, representing the applicant, presented the request as outlined above.

Public Comments:

Terry Hudson (524 Riley Dr): Concerns with traffic.

Rebuttal: Mike Hoffman stated that commercial property is generally set up with retail type businesses. This project is located along a major thoroughfare, which should be able to accommodate an increase in traffic.

**FORT WAYNE PLAN COMMISSION**  
**Findings of Fact • August 2025**

<b>PROPOSAL:</b>	Rezoning Petition REZ-2025-0038
<b>APPLICANT:</b>	R & P Realty Trust, LLC
<b>REQUEST:</b>	To rezone property from C1/Professional Office and Personal Services to C2/Limited Commercial
<b>LOCATION:</b>	6900 block of Coldwater Road, southwest of its intersection with Oakbrook Parkway (Section 14 of Washington Township)
<b>LAND AREA:</b>	8.99 acres
<b>PRESENT ZONING:</b>	C1/Professional Office and Personal Services
<b>PROPOSED ZONING:</b>	C2/Limited Commercial

---

The Plan Commission recommends that Rezoning Petition REZ-2025-0038 be returned to Council, with a Written Commitment and a "Do Pass" recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The property falls within the Urban Infill Area, with new development strengthening established neighborhoods and leveraging existing infrastructure.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The area currently contains a mixture of uses, from residential to office park and retail.
3. Approval is consistent with the preservation of property values in the area. This proposal will change the future land use from C1, which is primarily for office use, to C2, with the intent of developing high-end retail uses. C2 uses generally have different peak hours than office, thus better complementing the existing uses on Oakbrook Boulevard, in terms of activity and traffic.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. The site is served by public utilities. Review from agencies like Transportation and Airport Authority will mitigate development impacts. The development of Oakbrook Boulevard and a new traffic signal have improved traffic in the general area and were built to serve this parcel, which already has a commercial designation.

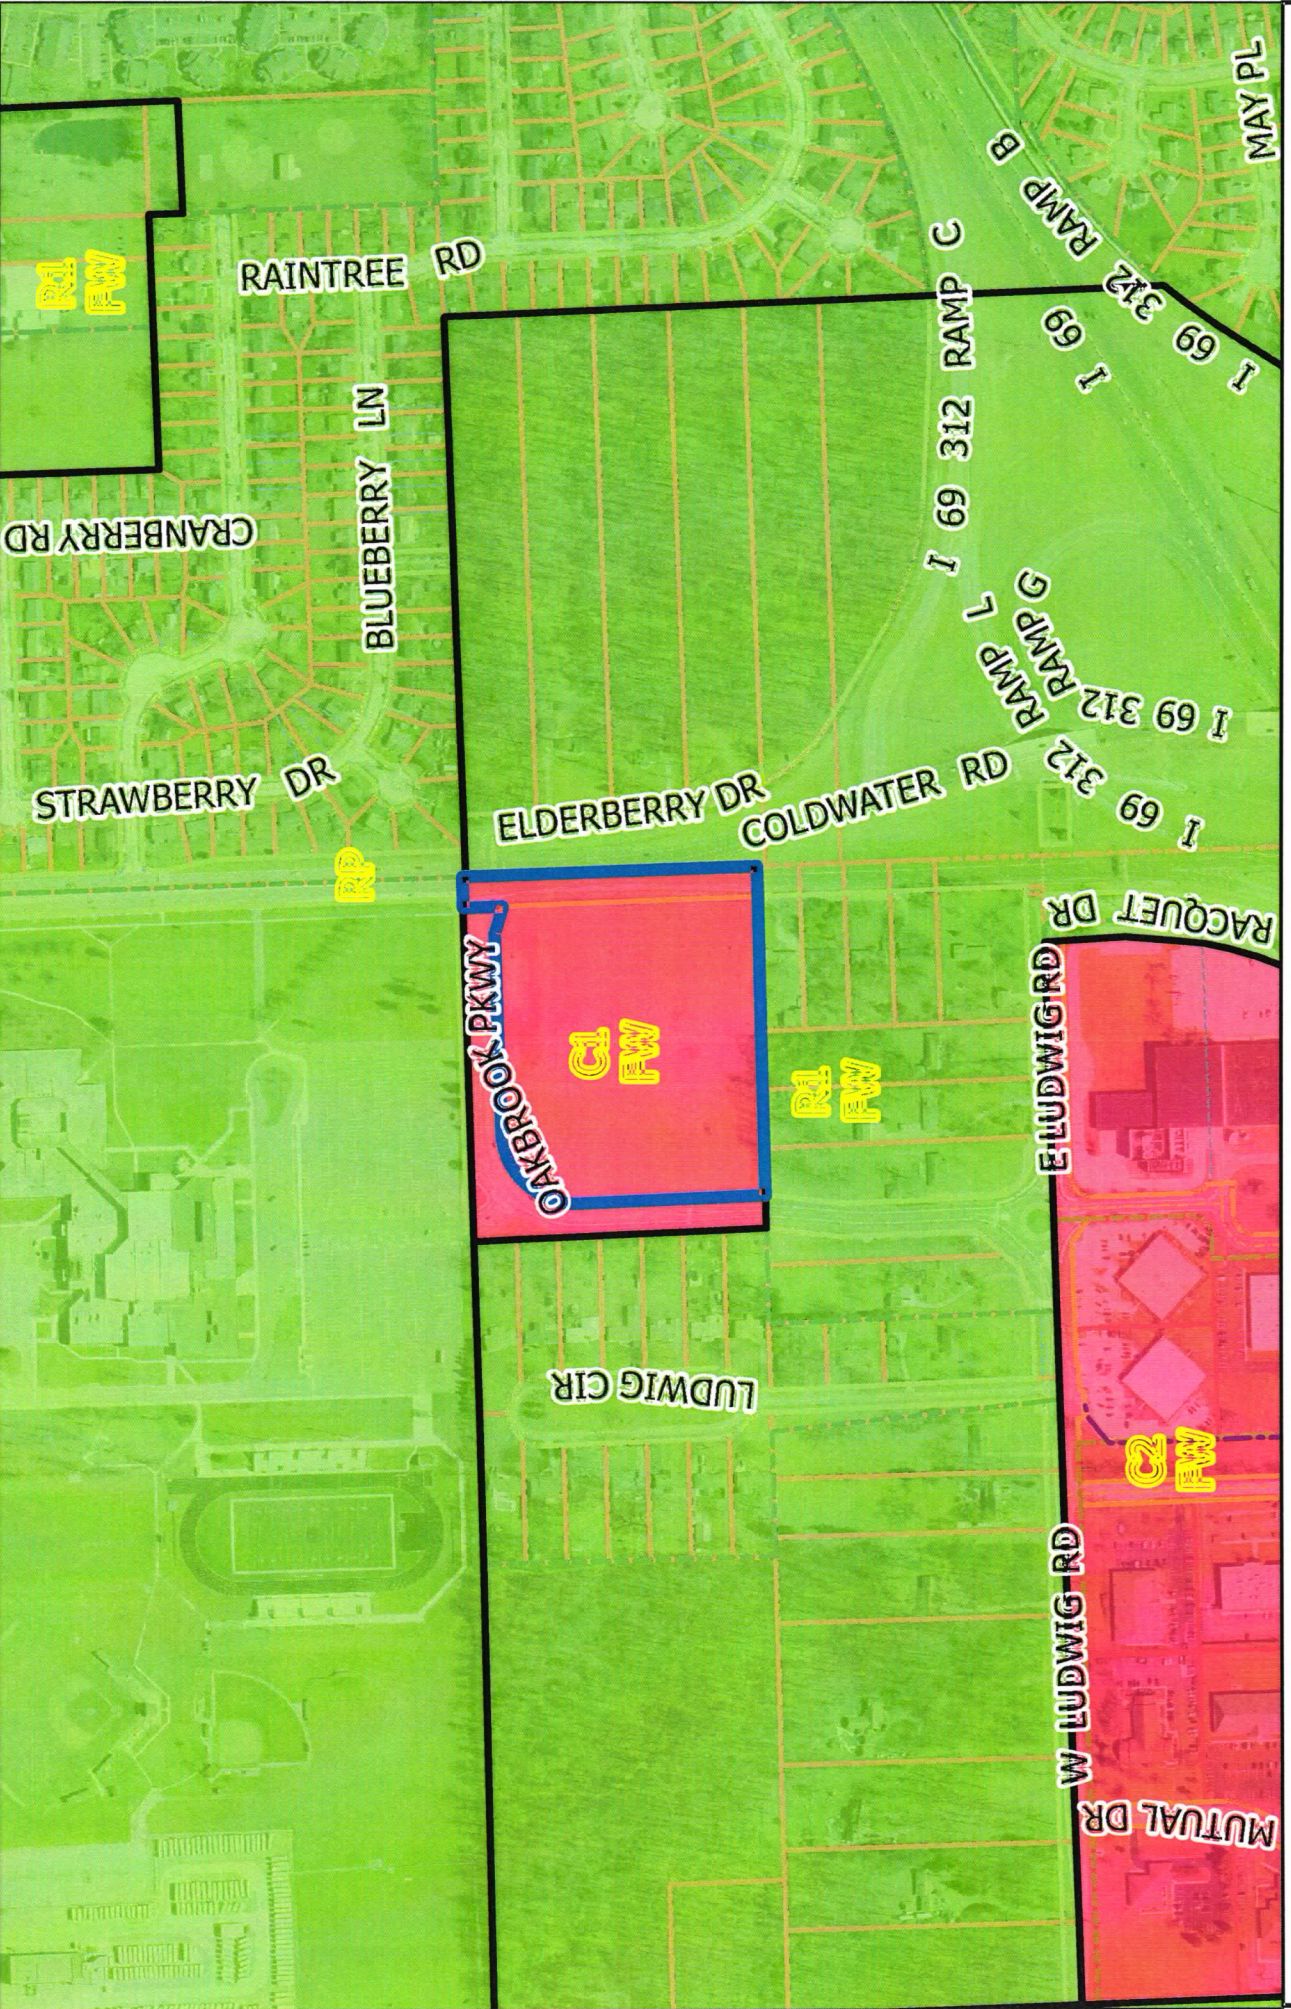

These findings approved by the Fort Wayne Plan Commission on August 18, 2025.
