PROJECT SUMMARY

The applicant is petitioning to rezone the property from C2/Limited Commercial to R1/Single Family Residential to align zoning with the current use. The site is part of the Garmans, Owen E & Tillie C Addition which was platted in 1920. The immediate adjacent properties to the north, south, and east are zoned R1/Single Family Residential with single family homes. To the west is C2/Limited Commercial zoning district, with an automotive repair shop across the alleyway. The applicant does not intend to change the use of the property as a single-family dwelling, but would just like to rezone to make future repairs and additions or sale of the property more feasible.

Findings of Fact • June 2026

PROPOSAL:	Rezoning Petition REZ-2026-0024 – 1626 Oxford St
APPLICANT:	Robert Taylor
REQUEST:	Downzone from C2/Limited Commercial to R1/Single Family Residential to align property with current use
LOCATION:	1626 Oxford St
LAND AREA:	0.13 acres
PRESENT ZONING:	C2/Limited Commercial
PROPOSED ZONING:	R1/Single Family Residential

The Plan Commission recommends that Rezoning Petition REZ-2026-0024 be returned to Council, with a “Do Pass” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The rezoning would bring the current single family dwelling into compliance.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. The applicant intends to continue to use the property as a single family dwelling.
3. Approval is consistent with the preservation of property values in the area. The uniform zoning should allow more consistent development, now and in the future.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. The site is served by public utilities and no additional burden on infrastructure is planned.

These findings approved by the Fort Wayne Plan Commission on June 15, 2026.
